New Deal National Backers Are Flustered By Court Decision

Rail Pension Court Decision New Deal Blow

Shift In Supreme Court Alignment May Affect Legislation

CHOSEN N. R. A. CASE NOW BEFORE COURT

Five To Four Decisions Put Big Issues Up To Narrow Majority

By WILLIAM S. NEAL
International News Service Staff Correspondent

WASHINGTON, May 7.—The possibility that a shift in supreme court alignments may doom vital new deal legislation, including the NRA, threw congressional lawyers into a ferment of speculation today.

While predictions on supreme court decisions admittedly are hazardous, the thumping 5-to-4 decision holding the rail pension law unconstitutional, was generally regarded as ominous to the new deal.

Chosen Case Before Court

The court now has before it the government's chosen NRA test case, with a decision expected before June 3.

Congress is considering the vast economic security bill, embracing the same theory as the Rail act, and a dozen other new deal test cases are on their way to the high court.

Striking similarity between arguments made for constitutionality of the Rail Pension act—and rejected by the court—and those made by Donald R. Richberg for validity of the NRA aroused wide interest.

Admittedly, congressional lawyers said, there are many differences between the NRA and the Rail Pension law. And Richberg relied heavily on two 5-to-4 decisions, the Minnesota mortgage and New York milk price fixing case, in which the court upheld these laws.

But in the Rail Pension law, Justice Roberts, joining the conservatives of the court and leaving the Liberals, marked a limit of power of congress under the commerce clause of the constitution.

Cannot Legislate On Idea

Congress, the court said, cannot legislate under the commerce clause on the ground that a Rail Pension law might make rail workers more satisfied and thus increase their efficiency.

One of the arguments of Richberg, for the NRA, was that minimum wages and maximum hours

PA NEWC OBSERVES

Only a fraction of an inch is needed to equal the normal precipitation for May, the records at the U. S. weather observation station show. The Normal precipitation for May is 3.38 inches. When over an inch of rain fell during the past 24 hours, it raised the total for the month to date to 2.64 inches. The weather so far this month has been in decided contrast to that of May last year, when a drouth was noted, only .81 of an inch of rain being noted during the entire month.

* * *

Continued rainy weather of the past week has probably resulted in another noticeable rise in the waters of the Pymatuning lake. Certain it is that sufficient water is being stored in the Pymatuning to take care of all needs of the Shenango valley during the summer, no matter if it is a dry summer.

Tomorrow is New Castle's monthly suburban day. Many local stores are sharing in the event, and thrifty shoppers from miles around will be in the city for the occasion.

Daily Weather Report

U. S. weather statistics for the 24-hour period ending at 9 o'clock this morning follow:

Maximum temperature, 56.
Minimum temperature, 45.
Precipitation, 1.05 inches.
River stage, 7.3 feet.

Statistics for the same date a year ago follow:

Maximum temperature, 87.
Minimum temperature, 61.
No precipitation.

New Castle Suburban Day Occurs Wednesday

Just a month ago New Castle experienced the first of a series of six Suburban Days. Every store, and there are more than forty of them, participating in the Suburban Day, put on sale real bargains and the response was enthusiastic.

Tomorrow, Wednesday, May 8, the second Suburban Day takes place and with the experience of the first day behind them the merchants are more than ever prepared for the influx of buyers. Bargains in everything to wear and eat will be displayed, and in addition to that the furniture merchant, the hardware merchant and the others will be out on the line with genuine buys.

Suburban Day is not just a Sale Day. Neither is it a catch-penny advertising scheme. It is an honest effort upon the part of the merchants of New Castle to offer their choice stock at much reduced prices for the one day as a means of attracting shoppers to their places of business.

Merchandise marked down for Suburban Day reverts to its previous level on the next day. Those buyers who imagine they can go in a day or two later and get the same marked down price will be disappointed. The merchants offer the bargains for one day, Suburban Day, and Wednesday is that day.

Two pistols, a shotgun and a supply of ammunition were found beside the bodies of the two.

THREE OTHERS ARE SERIOUSLY BURNED

Damage was estimated at $25,000. Cause of the fire was undetermined.

WILL TAKE VOTE ON SETTLEMENT OF AUTO STRIKE

(International News Service)

DETROIT, May 7.—Industrial relations took a forward step today, as workers in the Toledo plant of the Chevrolet Motor company prepared to use the ballot for peaceable settlement of a strike which made 30,000 men idle.

The workers will vote tomorrow, deciding whether to accept or reject peace proposals made by the company. Members of the American Federation of Labor union will vote "no". Non-union workers, who have asked that the plant be re-opened, will vote "yes". Both groups have joined with General Motors corporation in agreeing to this peaceful method of settling the dispute.

HARRISBURG, May 7.—By adoption of a Democratic sponsored resolution, the legislature today had pledged itself to enact laws creating a "super relief board" of three members from each chamber to act with state relief director Robert L. Johnson in administering relief in Pennsylvania.

No Further Congressional Move On Railroad Pension Legislation Is Indicated

(International News Service)

WASHINGTON, May 7.—Congressional backers of railroad pension legislation today indicated that no further attempts at legislation would be made as a result of the supreme court decision holding the 1934 act unconstitutional.

The pointed statement of Chief Justice Hughes that the majority opinion closed the door to a revision of the law was accepted by most pension advocates as sealing the doom of compulsory old-age security for over 1,000,000 rail workers.

Voluntary retirement plans, found by the court to affect 82 percent of rail workers, are expected to be continued.

"I plan to have a conference with officials of the railroad retirement board, but it looks as if congress can't pass any bill," said Rep. Crosser (D) of Ohio, who sponsored the bill in the house.

The railroad retirement board prepared to close up shop and dismiss 70 employes. Most of them are expected to be absorbed in other New Deal agencies.

The board is headed by Murray W. Latimer of New York, economist and pension specialist, with John T. Williamson and Lee M. Eddy as the other members.

Railroads advanced $140,000 to enable the board to maintain a skeleton staff until the courts decided validity of the act. Congress provided no funds for the board, since it was to be maintained out of contributions by railroad and workers.

Senator Dies In Crash, Chavez May Be Successor

SENATOR BRONSON M. CUTTING DENNIS CHAVEZ

Five were killed, among them Senator Bronson M. Cutting, progressive Republican from New Mexico and six others were injured when a Transcontinental Western Airlines plane crashed in a pasture near Barnsville, Mo. Senator Cutting, who was on his way back to Washington after a brief trip to New Mexico, is pictured left. Dennis Chavez, right, Democratic candidate opposing Senator Cutting at the last election, was rumored as possible successor. Chavez had contested Cutting's election. Governor Clyde Tingley, who names Cutting's successor, is a Democrat.

Democratic Opponent May Succeed To Seat Held By Senator Cutting

WAS CONTESTING CUTTING'S ELECTION

(International News Service)

WASHINGTON, May 7.—While mourning the tragic death of Senator Bronson Cutting in the Missouri airplane crash, the senate today was resigned to seating Dennis Chavez, former Democratic representative as his successor from New Mexico.

The appointment of Chavez is expected but will prove unpopular among Cutting's many friends in the senate. Chavez contested the election, which Cutting won by a thousand votes last November, and this contest was pending against Cutting when he died. For this reason, Cutting's friends are hoping Gov. Clyde Tingley, a Democrat, will name someone else to the senate vacancy.

Cutting's friends know Chavez waged a terrific fight against him for the seat. It was the Chavez contest incidentally that took Cutting back to New Mexico for a quick

MANY REMOVED TO HOSPITALS

By CHARLES A. SMITH

LONDON, May 7.—Londoners wearily dragged themselves back to work today, sleepy-eyed after the most amazing night since the armistice.

Paper-hatted, confetti-throwing hundreds of thousands, disregarding police pleas to go home, danced, sang and created chaos in the main streets of the "West End" until well after dawn in celebration of King George's 25th anniversary.

Joyous Time.

Piccadilly, Regent street, Oxford street and other famous thoroughfares, closed to vehicular traffic, were jammed with masses of humanity, "navvies" from the poor sections singing "Auld Lang Syne" with hilarious parties in top hats. "Pubs" were allowed to stay open later than the customary 11 o'clock closing time, and night clubs and hotels were packed.

State Senate Pieces Together Program To Provide Relief Funds

By G. EVERETT DOYING
International News Service Staff Correspondent

HARRISBURG, May 7.—The Republican Senate majority today pieced together 11 miscellaneous taxes into a tentative program to raise $60,000,000 during the next 12 months to finance the state's share of unemployment relief.

Drafted by the entire G. O. P. membership in caucus, the proposed relief-tax program was being studied by the finance committee. It was to be laid before the caucus again during the day for final approval after which conferees may seek another meeting with Gov. George H. Earle.

One brand new impost, on cosmetics, was dumped into the list as it was drawn up for study. Also included was a revived gasoline tax boost, one one cent a gallon to raise $10,000,000 annually. The cosmetics levy was carried at $1,500,000 a year.

Three On Calendar

Three of the other nine taxes in the draft were on the Senate Calendar. Two of them imposing a one-cent tax on each 10 cigarets.

Commander-In-Chief Of Jewish War Veterans Makes Address

SAM EDELSTEIN IS TOASTMASTER

Stressing the need for unity among the Jewish war veterans, the better to present a solid front against un-American doctrines and isms, William Berman of Boston, Mass., commander-in-chief of the Jewish War Veterans, addressed a group in the Castleton hotel Monday night. The veterans present were from Lawrence, Beaver, Butler and Mercer counties.

Captain Berman has a brilliant military record back of him, and with that a cultural background that serves him in good stead in his present position. He is a speaker of force and drives home his objectives. He scored the various anti-semitic organizations that have sprung up and urged the Jewish veterans to stand fast against them. MONROVIA, Cal., May 7.—This is the home of the famous Santa Anita race track. We are over here shooting some race scenes. I can't even pick the winner in a movie race where it's fixed.

Just reading of a fund the government has called the "conscience fund." If you feel that you have cheated the government you send the money. It now has $618,000. Now offhand that sounds like a lot of conscience, but it figures out to just one half cent apiece. So I imagine we still got quite a little bit that we haven't settled for.

Say, how about the government having a "conscience fund?" They have skinned us many a time.

Let poets sing of the joys of spring and the glories of growing grain, but I'll place a bet that their ardor's wet when you have to write in the rain. When the skies are gray and the clouds are dark, and there's mud and mire in street and park, this poetry business is not such a lark, and the weather gives you a pain. So let them sing of the verdant spring, let them play on the fife and drum, but I'm betting yet that their pen is wet, and their brain cells are rather numb. For the skies are gray with a touch of black, and there is no sun through a cloudy crack, ah woe is the poet alas alack, and the weather is fifty-one.

STATE SENATE PIECES TOGETHER RELIEF PROGRAM

(Continued From Page One)

to raise $5,000,000 annually, and the $1,500,000 a-year gift tax, were up for final passage with their proceeds earmarked for relief. The third, the $2,500,000 a-year documentary tax, was to be amended today to divert its revenue to the same purpose.

The other six taxes in the list are a corporate net income tax of eight or ten per cent, carried at $17,500,000 for the first year; a soft drink tax, $2,500,000; foreign truck mileage tax, $1,500,000; check tax, $3,000,000; individual income tax, $15,000,000 and the escheat tax, $687,000.

Republican leaders claimed the program met the latest demand from Federal Relief Administrator Harry L. Hopkins that the state must ante at least $3,000,000 in Cash monthly at once. This amount would be increased during the year to make the 12-month total $60,000,000. All but three of the levies bring in immediate revenue, they pointed out.

Must Act Quickly

Necessity for acting quickly spurred the Senate majority toward agreement. No more federal relief funds will be available after May 15 unless the $60,000,000 is enacted. There will be no state funds left after that date.

Governor Earle's reaction to the tentative tax outline was uncertain. All except the cosmetic, check, income and soft drink levies were originally contained in the executive's $203,000,000 tax program which the Senate has spurned, although some of those accepted have been altered.

Opposition has been expressed by Governor Earle to any income tax for relief purposes because of its questionable constitutionality. The administration has recommended it as a means of lowering school realty taxes. The cosmetics impost, understood to be included in the G. O. P. plan because of slow collections from the corporate income tax, was recommended to the administration weeks ago but has lain dormant. The corporate tax now is estimated by the Republicans to net $40,000,000 in two years, but only $17,500,000 the first year.

The Republican plan also ignored Governor Earle's demand that levies on manufacturers and utilities be included in any compromise tax program. These imposts were understood to be on the table for discussion at the Republican gatherings, with the likelihood the G. O. P. will offer to negotiate on them when it takes up the question of additional taxes for the general budget.

"SUPER RELIEF" BOARD PLAN IS BEING ADVANCED

cations for administrative jobs with the state relief board, revoke all salary increases and investigate the other sources of income of present relief board employes.

Appointed By Judges

Two of the county board members would be appointed by the governor and two by the judge of the common pleas court. The members would be paid $5 a week for serving.

The legislature may or may not pass laws putting into effect the scores of resolutions it adopts each session and many members were willing to admit the Moomaw resolution will be printed in the legislative journal and forgotten. Its chief purpose, they explained, was to deliver a legislative rebuke to relief director Johnson for rejecting most of the applications filed recently for positions as investigators for the state relief board.

Many Rejected

The resolution charges that many applicants "with generally recognized experience and good common sense" were rejected because they lacked social workers' experience; that "the majority of present relief visitors are too young and lacking in general experience and mature judgment and that by far the majority of these visitors and a large number of other state emergency relief board administrative employes throughout the commonwealth are members of wealthy families," and salary increases of as high as 45 per cent have recently been given relief board workers.

tion, of which Harry L. Hopkins, FERA chief, is the director.

Behind Closed Doors

Today's meeting, held behind closed doors, it was expected was more of a huddle before the various groups go into action and try to place all the 3,500,000 persons on the relief rolls in work-relief jobs. Some action on general projects is expected to follow.

Since first organized, most of the divisions already have made preliminary moves. The divisions of applications caught the first brunt of the drive as it is the clearing house for applications originating both within the departments and from outside.

Huge Linen Supply Need Of Hospital

In the purchase and making of seventy items of linen supply for Jameson Memorial hospital we make up each item to a precise standard specification irrespective of the patient floor or ward to which the item may be stamped for use. Rich and poor alike use the same quality of linen supply. The second floor of Jameson Memorial hospital is the adult floor where most charity patients are cared for. As an average, 45 of its 50 beds are continuously occupied. We have provided and we maintain a linen supply of 2200 pieces including thirty items for this floor—a few less than fifty pieces per patient. This supply is adequate but not excessive. It is ample for ordinary or unusual needs of the floor without necessitating "washing out" something for change. It would be wholly inadequate unless it were backed up by an operating room supply of 2000 pieces to care for operation needs and sterilization of floor supplies.

Each department of the hospital has its own supply of linens marked for use in that department. Experience shows that linen shortage requires such frequent washings that materials deteriorate at a more rapid rate than might otherwise be the case. A bed sheet washed and ironed six days a week will stand up for about 200 washings. The same sheet washed and ironed twice a week may stand up for 300 washings. The same sheet used in the home and coming to use and laundering every two weeks might stand up for 400 washings—16 years of use. There is economy in adequate supply.

We are starting our 6th year in this work. We have become experienced. Our time and money is devoted exclusively to supply of vital hospital necessities without which Jameson Memorial hospital could not have protected 15,000 of us sick and injured during these past five years.

We are not just a social sewing circle—we are useful. We are part of a vital community institution. For your own sake, join with us. $1.00 will do.

Tax Program Is Completed

Senate Republicans Are Ready With Relief Taxation Proposals

(International News Service)

HARRISBURG, May 7.—Republican senate leaders have agreed on a $60,000,000 tax program to finance relief for one year as demanded by federal authorities, Sen. John J. McClure, Delaware, chairman of the senate finance committee, announced today after a lengthy meeting of the group.

"We have definitely agreed on a $60,000,000 program," McClure said. "We will submit our recommendations to the Republican senate caucus this afternoon."

The new program, drafted by the entire G. O. P. senate membership in caucus, was discussed at a lengthy meeting of the finance committee this morning. McClure said the new tax measures agreed upon will be amended so their returns will be earmarked for relief for a one year period and then released from committee.

Immediately upon adjournment of the finance committee session, the senate met to take up its calendar. Plans of the Republican majority were to speed through the calendar as quickly as possible in order that the Republican caucus on the new tax program could get under way as soon as possible.

McClure said the committee had decided to recommend to the caucus that a proposed tax on cosmetics be dropped. The remainder of the program was understood to carry ten new taxes, including a one-cent boost in the gasoline tax to raise $10,000,000 a year.

organizations and stressed the fact that membership in these organizations adds to the effectiveness of membership in the JWV. He closed by congratulating the men here in their purpose to consolidate the four counties in one organization and prophesied success.

Sam Edelstein, Toastmaster

The toastmaster of the evening was Samuel Edelstein who has been active in JWV work here. At the beginning of the dinner he called upon Rabbi Leon Schwartz to deliver the invocation. Mayor Charles B. Mayne welcomed the guests in behalf of the city and James Moorhead brought the greetings of the American Legion. Ira Nowling spoke for the Veterans of Foreign Wars. Miss Dorothy Fisher accompanied the group for the singing of the Star Spangled Banner and "Hatikva." She also presented a group of piano solo numbers.

Attorney Ben Giffen of Pittsburgh, a leader in ex-service work, was introduced and spoke briefly. In a humorous way he brought out the reasons for the JWV in no less effective manner than the more serious addresses.

Mrs. Ethel Cohen of Providence, Rhode Island, the national president of the JWV Auxiliary. She stressed the need of the auxiliary in the local organizations and briefly outlined the work of the women. Harry Schaffer, National Junior Vice Commander of the JWV, spoke briefly upon the ideals of the organization and urged every Jewish ex-service man to affiliate with it. State Commander Max Slepin also spoke, augmenting the remarks of the national officers.

While the crowd present was not a large one, it was enthusiastic and out of the meeting is expected to come a sound organization for the four counties. A meeting will be called in several weeks at which time the details of the organization willl be worked out.

Some lawyers saw in the decision the constitutional doom of the pending Wagner-Connery Labor Relations bill, outlawing company unions.

Much of the new deal legislation has been based upon the right of congress to regulate interstate commerce, or anything "affecting" interstate commerce.

THE BRITISH ROYAL JUBILEE

THE British people, and those of the Dominions as well, have every reason for celebrating with enthusiasm the completion of the twenty-fifth year of George V's reign. A sane and quiet man, without the qualities appealing to the popular imagination that Edward VII possessed in such a marked degree, he was regarded at first with more respect than affection.

Until the death of his brother, the Duke of Clarence, he had not expected to be king. His training had been in the navy, where he advanced from one post to another by deserved promotions. There is little doubt that he gave up with some regret a profession which was dear to him. Yet the verdict of history must be that he has filled his high office with distinguished success.

George V has been tested severely during the quarter of a century that he has been on the throne. At the time of his accession there were clouds on the horizon that few regarded with any deep misgiving. His country was at peace, it was enjoying a reasonable prosperity, its problems were mainly domestic, the most serious of them being Ireland and the clash between the Lords and the Commons over constitutional rights. From the beginning the king showed that he would hold the scales even, that he would follow without cavil the advice of his ministers, though using his great influence to prevent a dangerous clash of parties. They had as much confidence in his judgment as he had in theirs. Thus he kept the throne free from partisan strife and made it more than ever the symbol of national unity.

The World War came while he was still comparatively untried. Although he could not, as Addison said of Marlborough, "ride in the whirlwind and direct the storm," his calm and courageous performance of duty was an example of great potency to all his subjects. He shared their perils and privations at home and abroad. He visited the trenches under fire, despite all dissuasion, and showed the world that he was a man as well as a king.

In all the troublesome times since the war he has kept his head. Even during the social and political struggles which brought a Labor government into office, and during the crisis which split the ranks of Labor and led to the formation of the National government, his wisdom and tact did much to allay ill feeling which in some circumstances might have shaken the nation to the very depths. He has been a representative of national life such as none, but he could be, "What do they know of England who only England know?" George V has an intimate acquaintance with many parts of the far-flung empire.

The king and queen—in fact, all the members of the royal family—have performed untiringly the increasing ceremonial duties of their position. More than this, they have shared the lives of their people in ways which greatly strengthened the bond between them. The fiercest radicals would not now see the throne abolished—a throne which Edward VII once fancied he might be the last to fill.—Philadelphia Inquirer.

STRAW VOTING

A bill to abolish straw voting has been introduced in the house at Washington by Representative Pierce of Oregon, who believes that straw votes do more than forecast the results of elections. It is his opinion that they affect elections directly.

The proposal from the Northwest is no surprise, for it was to have been expected that an attempt would be made some day to end a practice that is familiar in every campaign of importance.

Should this bill be recommended for passage it will provoke some heated and interesting discussion, during which a point will be raised concerning the states' rights to control their elections.

"THANK YOU"

Two little words that make the world run more smoothly, that ease the hard places of life and absorb many of its shocks, are "Thank you."

They are the sign of a gracious spirit. They bespeak of a generous attitude that would not withhold praise from those that deserve it—a commodity with which too many of us are stingy.

The majority of us take too much for granted. Among a people of infinite resources, we expect much and accept everything as a matter of course.

Yet one's best friend likes to hear an appreciative word. While a compliment deserved by an outsider and extended frankly and generously will often convert an enemy into an ally.

These two little words, "Thank you," make the world run more smoothly. Learn to speak them. No praise is ever wholly undeserved. Encouraging words are as great a miracle worker as this old world knows.

MAY: MONTH OF BEAUTY

Now comes May, one of the prettiest and most pleasant months of the year. Winter has gone, the heat of summer has not yet come and vegetation prepared to spread with lavish hand its beauty all about us.

The origin of the name of most months is easy to trace. Not so May. It is generally agreed that it was named for Maia, the Roman goddess of spring, but there is also a theory that May is the abbreviated form of Majores and that the month was so called because it was held sacred to old men as June was dedicated to Juniores or younger men.

Originally, May was the third month, but it became fifth when the Romans placed January and February at the beginning of the year. It always has had 31 days. Its special flower is the hawthorn and its gem the emerald.

Since earliest times the first of May has been marked by outdoor festivities and children have danced about a Maypole for hundreds of years.

Today many schools have May-day festivals in which gay costumes, pretty flowers and dancing complete a most colorful picture.

MEASURE YOUR THANKS BY THE QUALITY OF THE WORK PERFORMED

How often do you offer a word of praise to the person who performs some humble service for you?

You seldom forget to compliment for an important service.

The humble person may have shown more painstaking effort than the one who is more personally important and he merits as much praise.

A simple person who does a simple act well is as deserving of recognition and praise as the one who is able to do a greater service because the quality of experience and education is higher.

There is not enough attention paid to the one who serves well in a menial job.

These are the forgotten ones when compliments are passed about.

It takes talent, artistry and effort backed by thought to do the small things of life and do them well.

The homemaker finds many little things to do; finding them unappreciated, she gets discouraged and loses interest.

Many who plod along day by day in lowly positions would also like a word of appreciation from you.

You pay for your work, yes, but that is not enough!

GROWING UP

One thing I know; at twelve years old
A little girl is hard to hold.
Her dolls neglected seem to say:
"Has Janet really gone away?
And who is this long-skirted maid
Who keeps the room where Janet stayed?

"Who can this haughty person be
Who enters here yet doesn't see
That weeks and weeks and weeks and weeks have fled;
Since properly we've gone to bed?
Janet would never go to rest
Until she had us all undressed.

"There is a lady here who stands
Before the mirror and her hands
Arrange with most particular care
The shimmering beauty of her hair,
Or touch with drops of scent each tress
And seems to think of naught but dress."

So sad they seem and sad am I
To see the swift years racing by.
And, like the dolls I gaze upon,
I wonder, too, where Janet's gone.
But all I know: at twelve years old
A little girl is hard to hold.

Weekly Health Talks

HYPOCHONDRIACS

"One of the disadvantages of popular health information lies in its effect on certain highly impressionable persons. Apparently not being able to keep things on an even keel, they over-emphasize the truths of hygiene to a point where worry and concern regarding personal activities really make them abnormal in their health interest. And this mental condition, through its cumulative action, can very easily make hypochondriacs of them," states Dr. Edith MacBride-Dexter, state secretary of health.

"Hypochondriasis is defined as 'a mental disorder characterized by morbid anxiety as to the patient's health, often with simulation of diseases.' Which, to say the least, is anything but a healthy condition. The fact is, however that a larger group of persons than is suspected in varying degrees, are suffering from an unbalanced interest in individual health conduct. And by far the majority of them have been led astray by misinformation or information misapplied on so-called popular health subjects. It is a fine example of the old adage. 'A little knowledge is a dangerous thing.'

"Consider, for example, the man who imagines that he is suffering from one or another sort of ailment is consequently forever medicating himself with divers self-prescribed pills and tonics and in short is enjoying self induced poor health. Moreover, at home, he discourses eloquently upon his ailments, to all and sundry, making himself and his friends miserable in consequence.

"Persons who are quite well and yet fear that any strain above average will impair the heart, who are convinced that the loss of an hour or two of sleep will undermine their health, who fret if they miss their daily walk, and on top of it all read and try to apply all sorts of new fangled health ideas gleaned from magazines, books and the platform, such persons are victims of a most unfortunate backfiring in health concern.

"It should be appreciated that, after all, Old Dame Nature's laws are quite elastic, and that a reasonable intent for the living rules, in the absence of disease, is about all that she asks.

"In short, to over-emphasize health is just as bad as to ignore the subject. Most decidedly, hypochondriasism, or any leaning in that direction, should be studiously avoided.

Hints and Dints

Sun sets tonight 7:01. Sun rises tomorrow 4:52.

There is one thing that is always going up and that is the heels on women's shoes. Some of 'em have had a hard time navigating on some before this and now they are to be higher yet. Oh, hum!

A dust storm swept through the West. That called for more sweeping.

STILL IT WASN'T QUINTUPLETS

"Triplets," the nurse said, grinning,
After the manner of such.
The father, his poor head spinning,
Cried: "Oh, this is two too much!"

Its an ill wind that blows nobody some good. The dust storms which have taken all the top soil from fertile western land, have uncovered a number of Indian relics, and prehistoric inhabitants of certain regions. Of course you can't eat these relics, but lots of archaeologists would go without eating if they could dig up something like that.

A word to the unwise is only a beginning.

TODAY'S HOROSCOPE

Persons born on this day are very critical and condemnatory to the last degree, but hypersensitive to the criticism of themselves.

We hear a lot of birds say they never will go to war. Just wait until the band goes tooting down the main stem and some one has fired a shot at the flag and you will see 'em fall in right back of the band and never go home to change their undershirt. During the Civil war men left the harvest field without going to the house when men came along and told them of battles. We are great!

A Pittsburgh woman is seeking a divorce because she says her husband put her on a two-meal-a-day diet, and then ate all he wanted himself. When he gave her a quarter for anything, she had to give back the change. Wonder if he displayed any of these characteristics before their marriage.

AN EXCEPTION

"Clarence," she called, "I am not accustomed to call my chauffeurs by their first name. What is your surname?"

"Darling, Madam."

"Drive on, Clarence!"

What this world needs is a few soul-stirring songs about paying taxes.

Reform: Making decent people obey strict laws to punish those who won't obey any laws.

ANATOMY

A little girl offered the following composition on anatomy:

"Anatomy is the human body. It is divided into three separate parts, the haid, the chest and the stummick. The haid holds the skull and the brains if there is any; the chest holds the liver and the stummick holds the vowels, which are a, e, i, o and u, and sometimes w and y."

Two times one is just two, but when a girl two times one, it is just too bad.

According to a new law passed in Harrisburg it is going to be easy for those who have not paid taxes for some years to pay them from now on in installments. Of course this does not seem quite fair to those who paid promptly, but getting the money finally means a great deal.

Well, one nice thing, life will never be too flat as long as we are having ours ups and downs.

THE BARTER ERA

A great many people seem to be counting on using scrip or something if they can't get money to do business with. We know that many cities have tried scrip, but the system has plenty of drawbacks. Now that the federal government is really going to put scrip on the map and establish industrial centers everywhere so that people who have no money can still exchange the products of their labor, the plan is going to have a genuine trial.

L. D. Waters tells of an incident which illustrates very well what we must be prepared for if we go into scrip in a big way. He says: "A farmer in the South hired a hobo to work half a day for him, for the sum of $1. After dinner the farmer informed the hobo that he had no money but would give him the equivalent. He gave him a fine coon hide and told him it was legal tender in that section for a dollar. The hobo, with some misgivings, accepted the coonskin and went on his way. At the first crossroads store he went in and asked for a 10-cent sack of smoking tobacco and tendered his coonskin in payment. The storekeeper inspected the skin with a grunt of satisfaction and threw it under the counter. Then he counted out nine possum hides for change.

About all some gals get out of two or three marriages is to get their maiden names back. And then they don't seem satisfied.

Still, man seems pretty decent when you think of the things he can't do until he gets drunk.

We never did hear of a strike leader who ever made much of his leadership. When the strike is over and the men are back to work he is a marked man and gets the gun the first opportunity and those he led don't even care.

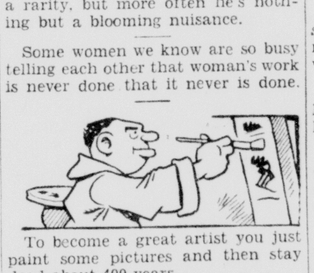

AN ANGEL ON EARTH

Let poets sing their lilting song
And gaily smite the lyre;
Give me the man who whistles while
He's putting on a tire.

Young people in high school are being taught to keep a balanced budget, which shows they are not being trained for politics.

The budding genius may often be a rarity, but more often he's nothing but a blooming nuisance.

Some women we know are so busy telling each other that woman's work is never done that it never is done.

To become a great artist you just paint some pictures and then stay dead about 400 years.

Sometimes when crooks get convicted they cast reflections on the intelligence of the jury or at least some members of the convicting body. They make no bones about basing a claim for a new trial on just such trivial thought.

MORNING GLORY

My past experiences good and bad
I shall erase from my mind
Giving my strength to the present
And making it something divine!

Statesmen are burdened with many problems, most of which wouldn't exist if there were no statesmen.

Couldn't you get along as well or better if the government quit doing anything? Well, other people are equally smart.

HELPFUL HINTS

Glassware takes on the highest polish if dried directly from hot, clean suds without being rinsed.

If the cellar steps are dark, paint the last or bottom one white—it might save a fall.

Extremely hot water may injure gold-decorated china.

Fo more room in the refrigerator use jars to keep food in—they take up much less space.

Slightly under-ripe fruits make the best pickles.

To keep one-piece dresses from sagging when hung up to dry, pin at the center of the front hem and the center of the back hem.

A tip to husbands: If you want to have some fun, clip out this very paragraph and take this copy of The News home to your wife. She will at once ask: "Uh-huh! What have you clipped out? Then you will reply "Oh, nothing!" Then watch the fur fly. (Note: Better save the clipping to clear yourself.)

WHAT SHAKESPEARE SAID

There's beggary in the love that can be reckoned.
—Anthony and Cleopatra, Act 1, Scene 1.

Correct this sentence: "I know Willie needed it," said the fond parent, "Or the teacher wouldn't have licked him."

Americanism: Pretending to dislike the tender, heart-breaking pleas of the evangelist; listening to radio advertising that has the same sound.

Modern marriage: Taking one home on trial.

Then there was the visitor who thought a night club was something a policeman carried.

Gambling is natural with some people as is eating and you might as well try to stop them from eating as from gambling. The more they lose the more they want to gamble, thinking they can get their losses back.

The two agencies that do most to speed legislation are the president's influence and Washington's summer weather.

Stealing children is a stupid crime. No slick lawyer will accept a child as pay.

No man is a confirmed failure until he begins to hate those who aren't.

Another great problem is trying to solve the question "What is a liberal?"

Every now and then we read about a hitch hiker robbing the man who picked him up. There is also a law against hitch hiking, which very little attention is paid to.

WHO AUTO SPEAK FIRST?

In case of an auto wreck, who should speak first? And should the men precede the lady through the windshield?

Of course the processing tax hurts business. Do you happen to know one that doesn't?

They now have drugs to lessen the pain of extracting your teeth, tonsils and everything except your tax.

A soft answer turneth away wrath, but a hard blow is even more effective.

It has always seemed to our humble mind that price fixing is a big help to the few and detriment to the many. We never were in any price fixing combination, so may be wrong.

The more we study this mess called civilization, the more we wonder what makes the simple savage savage.

Another thing this country needs is some way to make the Jap strike for a 6-hour day and $30 a week.

Americanism: Reducing the cotton crop because we can't use so much; importing ship loads of other fibres that compete with cotton.

The average American works one day a week for the government and two days for a sucker trimmer.

Detectives could easily locate swindlers. Just give the typical American $50 and follow him.

Protection: An import tax levied to protect any industry that is big enough to afford a lobbyist.

Ocean flight: A daring experiment to aid science and carry letters for stamp collectors.

Merge For Third Party. Who Would Take Back Seat? Groups Are Split Up.

Central Press
Washington Bureau
1900 S street

By CHARLES P. STEWART
Central Press Staff Writer

WASHINGTON, May 7.—If third party sentiment is to amount to anything in 1936, obviously there must be a consolidation of the various groups of folk. It is presumed that these groups, for one reason or another, already are convinced that neither Democrats nor Republicans will offer a program or candidate acceptable to them at their respective conventions a year hence.

They must agree on a leader, too.

The malcontents realize all this and one hears considerable discussion, by their representatives in Washington, of the necessity for get-together activities.

* * *

POSSIBLE PARTNERSHIPS

Of the different blocks of political and economic mavericks each has its own individual philosophy. They are necessarily mutually antagonistic, as are radical Republicans toward conservative Republicans and as old-line Democrats increasingly are becoming toward the New Deal.

There never, for example, could be such a thing as co-operation between a Democrat like Senator Wheeler and a Democrat like Senator Glass; a Republican like Senator Norris and a Republican like Senator Hastings.

However, Senator Huey P. Long and Father Coughlin might strike a partnership, neither particularly caring for the other's teachings, but not particularly objecting to them either, and each being willing to help the other in consideration of aid rendered to him. Dr. F. E. Townsend's following also is spoken of as available for the purposes of such an alliance.

* * *

LONG TO SUPPORT OLSON?

The Farmer-Labor party is similarly mentioned.

And, in this connection, Minnesota's Farmer-Labor governor, Floyd B. Olson, frequently is referred to as a suitable leader of the proposed joint forces—and as their presidential nominee.

Of course the question is raised, "Would Huey Long come into any combination except as its kingpin in every respect?"

The consensus on Capital Hill is that he would—that what Huey has in mind, if he bolts the Democratic organization at all, is to be the power back of an independent movement rather than its standard bearer. True, perhaps he wouldn't find a candidate like Olson as manageable as his governor of Louisiana, O. K. Allen, has proved to be. Nevertheless, that is supposed to be his plan.

* * *

MILO RENO A FACTOR

Milo Reno of Des Moines (Iowa) likewise enters into the third party calculator's reckonings.

Milo Reno will be recalled as president of the Farmers' Holiday association which staged a formidable program of agrarian strikes throughout the country's geographical "bread basket" two or three years ago and which recently held a convention at Des Moines, Ia., attended by Huey Long.

Reno Is suggested as manager of a third party campaign.

Nor is Reno a person to be lightly regarded.

He is, for the mid-west, a big business man; the head of a farmers' insurance company; a political and economic (and physical) fighter of the first class; a short, broad man, dynamic from the ground up; a positively thrilling speaker, with a huge following in the ranks of the corn belt's agricultural tenantry and in the ranks of the small retailers who are dependent upon agriculture's prosperity for their own.

* * *

THIRD PARTYISM SPLIT

Such an alignment (if it can be aligned) isn't to be sneezed at.

But can it be aligned?

As previously remarked, its basic differences of opinion are not vital, like those between ultra-radicalism and ultra-conservatism — but its multiplicity of group leaderships is temperamental to the ultimate degree.

Illustratively, it will be noted that the scrool of them doesn't include the La Follettes—and the Wisconsin Progressives are a queer bunch to omit from a list of probable adherents to a list of political independency. Yet it is explained that young Senator "Bob" M. La Follette (whether or not his brother, young Governor "Phil", isn't so clear) can't stand Huey Long.

If personalities of this sort are to count, the movement does not look so promising.

Olson-ites and Long-ites can unite, or Olson-ites and La Follette-ites, but ot Olson-ites, Long-ites and La Follette-ites. Starting thus, third party-ism is in danger of developing into a hopeless jangle all around.

Evidently third party-ism is split wide open, just as Democracy and the G. O. P. are.

May 7, 1774.—William Bainbridge was born in Princeton, N. J., destined to win enduring fame as a U. S. naval commander.

He ran away to sea at 15, and at 19 was commander of a merchant ship. He was only 22 when he won renown with a victory over the British. His shop, "Hope," bound from Bordeaux to St. Thomas, was attacked by a British schooner of eight guns and 30 men. Bainbridge's four guns and nine men returned the fire and with his skillful maneuvering kept it up until the schooner had to strike her colors.

Bainbridge scored more victories over the British than any other naval commander in history. No squadron of equal strength ever accomplished the results that the three historic vessels of Bainbridge's command, **Constitution, Essex** and **Hornet**, did in War of 1812.

Administration To Give Accounting

(International News Service)

WASHINGTON, May 7.— The Roosevelt administration plans to give an accounting of its monetary policy Monday night.

While Secretary of the Treasury Morgenthau said the radio address he planned to broadcast to the nation will be a review of the government's manipulations with the dollar, there was the clear intimation that some hint to future policy will be given.

The United States may serve notice to the world of the plan it proposes to pursue—an aggressive policy backed by eight and three quarters of a million dollars in gold, or about forty percent of the gold supply.

No Immediate Prospect

Because of the troubled state in the world monetary policy and the possibility that France and Switzerland soon might be forced off the gold standard, there is no prospect that the United States immediately can move for permanent stabilization. However, the hope in the probable tenure of Morgenthau's speech may be in that direction.

Discussing the pronouncement of policy Morgenthau intimated that there are many fundamental policies of monetary matters he might discuss—gold, silver and stabilization.

Kidnapers Will Go On Trial At Harrisburg, Pa.

Two Men Will Be Tried Under "Lindbergh Law" For Kidnapings

(International News Service)

HARRISBURG, May 7—The first defendants prosecuted in Pennsylvania, under the so-called "Lindbergh" law, Joseph Backner, 28 and Mathias Saleski, 27, both of Binghamton, N. Y. were scheduled to go on trial in federal court here today.

The alleged auto-kidnap bandits were indicted by the federal grand jury late yesterday on two specific counts of violation of the law under which life imprisonment may be imposed.

They were accused of abducting Alfred Douglas, of Catasauqua and Wilmer Allan, of Hazelton, by locking both men in the luggage compartment of their own cars and driving them to distant points. Douglas was kidnaped in Allentown and driven to Binghamton and Allan was abducted in Hazelton and abandoned in Endicott, N. Y.

FIFTH FATALITY IN PLANE CRASH REPORTED TODAY

(Continued From Page One)

held 30 gallons of gasoline, witnesses told the coroner's jury last night, the fog-enshrouded Douglas liner's main tanks were nearly dry when it crashed, scattering its occupants over a wet farm pasture near Atlanta, Mo.

Make Investigation

Arrival of five aeronautic inspectors of the Department of Commerce on the scene today gave promise of a thorough investigation into several phases of the accident. The federal investigation was being directed by James Kenney, airplane inspector of the Pacific Coast division. He was assisted by Inspectors Phil Salzman and Russell Delany of Kansas City and Inspectors Byron Jacobs and Bruce Braun of Chicago.

"We have only begun," one inspector declared before today's renewal of the inquest. "It will be several days before we have finished."

Two of the injured, Paul Wing of Hollywood, father of Toby Wing, the motion picture actress, and C. G. Drew, technical executive for Paramount studios, were in critical condition at Samaritan hospital, physicians reported.

To Question Survivors

The coroner's jury today was expected to open with the testimony of two of the survivors. It was indicated that Mrs. D. L. Mesker, wife of a TWA pilot, and William Kaplan, assistant producer for Paramount studios, would testify. Mrs. Mesker was only slightly injured, while Kaplan suffered a fractured leg in the crash.

Senator Cutting's body was started for New York, where funeral services will be held. The senator, a Liberal Republican, was flying back to Washington to vote for payment of the soldiers' bonus. Aboard the ill-fated plane was a group of Hollywood officials bound for Annapolis, Md., for the filming of sequences at the Naval Academy.

Preliminary investigation has determined, federal inspectors said, that the radio transmitter on the plane had been disabled since it left Wichita, Kan. Arriving over Kansas City airport in a dense fog, the plane circled for half an hour and then Pilot Harvey Bolton was ordered to fly to an emergency landing field at Kirksville, Mo., and there set down. He was fifteen miles distant from the Kirksville field when the plane struck.

Blame Lack Of Gas

In the only official statement concerning the crash Transcontinental and Western Air, through Paul E. Richter, vice president in charge of operations, blamed the crash on a dwindling gasoline supply. His statement said:

"We believe the accident can be attributed to the fact that Pilot Bolton, believing his gas supply was getting low, probably deemed it advisable to make a precautionary landing in what he picked out as a clear area, rather than to proceed.

"He probably did not see the road embankment which the plane struck, resulting in this regrettable accident."

From Roy Nuhn, a farmer, the coroner's jury learned that Pilot Bolton's dying words were:

"I ran out of gas."

Nuhn testified that Mrs. Dora Metzger of Los Angeles and Port Washington, Long Island, told him that the pilot, just before the crash, turned and shouted to the passengers to "buckle your belts tight." Mrs. Metzger suffered a fractured leg as did her 15 months old daughter.

Circus Orphan Will Be Hostess For Children

MARY HILTON AND PET BENGAL TIGER CUBS

Mary Hilton, six years old and the little sweetheart of some 1,080 employes of the Cole Bros.-Clyde Beatty Circus, will observe her birthday Wednesday, May 22, when the big show spreads its magic tented encampment in New Castle.

Tragedy has followed in the wake of little Mary's life. Her father an aerial gymnast, was killed in the fall from a perch pole at the Winter Garden, Berlin, Germany three years ago while the Cole Bros., Circus was abroad. Several months later, her mother, who too, was a circus performer, died after a short illness. With no immediate relatives, and characteristic of circus people to care for their own, Mary was adopted by the performers with the circus.

Although deprived of parental care, Mary is looked after with surprising care. She has an endless number of Shetland ponies and a wagon load of dogs as playmates including a couple of royal Bengal tiger cubs born two months ago. The little trouper wishes to be an acrobat when she grows up.

Indeed Mary's training has already commenced. Just now she is studying her three R's under the tutelage of Otto, the clown, and the most lettered performer with the circus. Mary will be hostess to the children attending the matinee so be sure and look for her.

An immense street parade, a triumphal display of elaborately carved and gilded allegorical floats, tableaus, dens and cages, nearly 100 vehicular appurtenances, will be seen on the downtown streets at 11 a. m. There will be over 1,000 men, women and horses in the picturesque processional; five herds of elephants and two humping caravans of camels from Siberia and the great Desert. Five trumpeting bands and two calliopes will be heard. Doors to the Clyde Beatty menagerie will open at 1 and 7 p. m. The big show will start promptly at 2 and 8 p. m. on account of its length.

Prospect Man Says He Is "Fed Up" On Hitch Hiking Game

PROSPECT, Pa., May 7.—James A. McGowan, "The Hitch-hiking Burgess," is "fed up" on hiking.

This he admitted today as he related his experiences on the record hop of his career—Butler to Florida and return.

The former burgess of Prospect arrived in Butler late Saturday afternoon, and thumbed a ride on New Castle hill for his last hop.

Leaving here February 15, McGowan arrived in Orlando, Fla., six days later after traveling 1,530 miles in thirty-eight "hops." He made the return trip in four days, a distance of 1,350, miles in twenty-three hops, after having visited all the principal cities in Florida but Tallahassee.

FIFTY ARRESTS IN GAMBLING HOUSE RAID

BEAVER FALLS, Pa., May 7.—In a gambling house raid here two alleged proprietors, Pete Dotre of Beaver Falls and Alfred Nitsch of Rochester, gave bond of $1,000 each for hearings before Alderman D. D. Garvin. Fifty visitors, rounded up by the officers, posted forfeits. Twenty-five others escaped, police said.

FAT FOLKS

This Reads Like A Miracle

She Just Wouldn't Listen To Gossipers

Mrs. J. Echimovich of Michigan City, Ind., writes: "I'm 31 years old and the mother of 5 children. 8 months ago I weighed 208 and after taking Kruschen Salts I now weight 128 and never felt better."

Persistency won for Mrs. Echimovich—she wouldn't let ugly fat make her old, pepless and unattractive—she paid no attention to envious people who said she couldn't safely lose her fat and all that nonsense—this woman had a mind of her own and tastes the result you can read again in her own letter.

Just take a half teaspoonful of Kruschen in a cup of hot water every morning—tastes fine with juice of half lemon added—jar lasts 4 weeks and costs but few cents. Eckerd's Drug Store, New Castle Drug Co.

Arrangements For Big Legion Event Complete

National Commander Belgrano Will Be Honored Thursday Evening At Dinner

GOVERNOR EARLE TO BE ON PROGRAM

General Chairman Ivor V. Davis, of the National Commander's banquet committee announced this morning that all arrangements for the big dinner and program, honoring National Commander Frank N. Belgrano, of California, has been completed and the event Thursday evening in The Cathedral is expected to be one of the biggest of its kind ever held here.

A meeting of the various committee chairmen took place last evening, when it was revealed that all the preliminary arrangements have been taken care of, and everything is in readiness for the arrival of the National Commander, and the many other distinguished guests who will be here for the event.

In addition to Mr. Belgrano, there will be the Department Commanders of Pennsylvania and Ohio, James E. Isherwood and William J. Konold. National Chaplain Hughes, is also coming here for the event. Then besides, there will be Governor George H. Earle, of this state, with seven members of his cabinet and General Edward C. Shannon, commander of the 28th Division, Pennsylvania National Guard.

A meeting of the Sons of the American Legion will take place at 7:30 this evening in the Legion Home, when plans will be completed to take part in the reception of the governor and National Commander Belgrano. A private meeting between the visiting dignitaries and the Sons of the Legion is being arranged by Chairman Davis.

The American Legion Junior Band, which will make its first public appearance on this occasion, held a dress rehearsal at The Cathedral last evening, where the boys were made familiar with the part they will play in the program. Arrangements are being made to have the band serenade National Commander Belgrano and Governor Earle on their arrival here.

Chairman Davis announced today that the complete program for Thursday evening's event will be ready for publication tomorrow. It calls for a dinner in The Cathedral, which will be followed by a formal program in the auditorium, followed by dancing in the ball room.

A Woman's Washington

Mabel Walker Willebrandt
What She Is Doing Today
Diplomatic Taxi Driver

By RILLA SCHROEDER
Central Press Writer

WASHINGTON, May 7.—Stormy petrel of the last administration, Mabel Walker Willebrandt, has settled down to a law practice in Washington and life in rural Maryland.

Mrs. Willebrandt is definitely out of politics. Her law business is proving lucrative and she has never quite forgiven her party chiefs for permitting her to take the rap in the Smith-Hoover campaign.

Her Maryland farm and her adopted daughter Dorothy, now a big girl, share her interest. Friends are invited out to spend the week-end but are warned that they will be "welcomed but not entertained." Mrs. Willebrandt has adopted the unique idea of issuing a printed invitation form (on what is known in newspaper offices as "copy" paper.)

It reads:

"Please don't come unless you want to and expect to take care of yourself. Wear rough clothes and old shoes—blue denim overalls preferred. If, after warning, anyone arrives in Vogue-country week-end outfits he or she will be pushed off the swinging bridge for a duck into Friends' creek.

"The same or worse punishment awaits anyone attempting to discuss business or politics of any kind."

SAID THE RIGHT THING

A taxi driver picked up a stranger near the Washington terminal and was told to drive to the House Office building (where members of congress maintain their offices.)

He asked:

"Which building and what door?"

The out-of-towner said he didn't know, but that he was to meet Representative Florence Kahn of California.

During their ride the taxi driver explained he knew Mrs. Kahn and that "everyone in Washington likes her even if she is a Republican."

Said the stranger:

"Fine! I am her son, and it is nice to know the folks like mother."

DAUGHTERS OF PUERTO RICO

Four pretty brunets work in the office of Santiago Iglesias, resident commissioner in Washington from Puerto Rico.

Senor Iglesias is a great admirer of American ideals and he has named his daughters Liberty, America, Justice and Light. Three other daughters, home in Puerto Rico, are called Equality, Fraternity and Peace.

America, youngest of the girls, attended school in Washington, where she was affectionately known as "My Country 'Tis of Three."

WHITE HOUSE?—NO, THANKS!

One woman who refused to live in the White House is Mrs. Frank Scheider (known as Tommy to her friends), secretary to Mrs. Roosevelt.

Mrs. Scheider found the top floor of the executive mansion, remodeled during the Coolidge administration, too torrid in the summer, and moved into a suite in a nearby hotel.

COMPOSER

The United States Marine band is playing a "Russian Cradle Song" and "Indian Love Song" composed by Mrs. Henrik Shipstead, wife of the senator from Minnesota.

MRS. ROGERS' COLLECTION

Mrs. Edith Nourse Rogers, congresswoman from Massachusetts, went on a shopping tour in Washington recently and came back with a taxi loaded with a weird assortment of dolls, water bottles, flags, etc.—all made in Japan.

She setup her exhibit in the lobby of the house and made a speech on the subject on the floor. Now she is at loss to know what to do with her collection.

MADAM SECRETARY

The secretary of labor, Frances Perkins, likes to collect little groups of friends at her pretty Georgetown house for breakfast.

SPEAKER'S SECRETARY

Margaret Robertson, efficient secretary and right-hand "man" to Speaker of the House Joe Byrns, is a sparkling person with black eyes, dark hair worn in a braid and a most business-like manner. She is the mother of four children, although one would never guess it.

(International News Service)

CAMDEN, N. J., May 7.—Unaware of the attention his absence occasioned, Charles Meyers and his U. S. mail plane rested on the infield of the Bowie race track at Bowie, Md., early today while state troopers of four states were conducting an intensive search throughout a rain-laden night.

Important Ruling On Fortune Made

(International News Service)

PHILADELPHIA, May 7.—In a ruling affecting more than 5,000 claimants, Judge Allen M. Stearne in orphans' court today ruled the $17,000,000 fortune left by Mrs. Henrietta E. Garrett reverts to her kinsmen.

Unless the Pennsylvania supreme court overrules the decree, the claimants to the fortune on the side of snuff manufacturer, who died before Mrs. Garrett, will not share in the vast estate.

"Elevator Death" At Erie Probed

Find Man With Crushed Chest, Broken Leg And Punctured Eye On Freight Elevator

(International News Service)

ERIE, Pa., May 7.—Authorities today were investigating the puzzling "elevator death" of Anthony Di Angelo, 63.

Found mortally injured in the elevator he operated for the Continental Rubber Company here, the aged man was rushed to a hospital in an unconscious condition. He died shortly afterward of a crushed chest, a broken leg and a punctured eye.

"Moaning" sounds from the elevator brought workers to the lift as it rose from the second to the third floor. Inside the lift they discovered Di Angelo, unconscious. Officials were unable to explain how he was injured or how the elevator was raised while the operator was in his injured condition.

Company officials said Di Angelo had been loading cement aboard the elevator. There were no indications, according to authorities, that he was injured while working.

B. P. W. Doing Splendid Work In Eye Cases

Spends Over $300 For Eyeglasses Among Young School Children Last Year

More than $300 was spent by the New Castle Business and Professional Women's club last year in providing glasses for school children of the city and county whose poor vision were impairing their class work. The cases were reported to the club by teachers and people interested, were investigated, and were provided with the type of eyeglasses needed. The cases in the one year totaled 37, and had been found in New Castle, Hillsville, Bessemer, Wampum, Chewton and other parts of the county.

Money to carry on this worthy work has been assembled by the club in a "clinic fund" and is received from the club members by voluntary subscription, and from money-raising club projects.

Most of the school children provided with glasses are in the lower grades, and a large proportion of the cases are in the first grade. Examinations have revealed that the boys and girls, considered by their parents as backward, had had little or no vision beyond a distance of 20 feet. They were not able to see the blackboards in their classes, in many instances, and were not progressing in their studies. Parents were usually not aware of the situation but were not in the financial condition to invest in glasses anyhow.

Drunken Drivers Are Sentenced To Workhouse Terms

Given Three To Six Months In Workhouse And Fined $200 For Drunken Driving

(International News Service)

INDIANA, Pa., May 7.—Charged with involuntary manslaughter in the death of Paul Kopson, 21, Buck Run, Joseph Kopczyk, also of Buck Run, today was under a three to Six months' sentence in the Allegheny county workhouse and a fine of $200.

Sentence was imposed here by Judge J. N. Langham when the 23-year-old youth pleaded guilty to driving an automobile while intoxicated, and causing the death of Kopson, a companion, in the accident. The latter was killed last April 14 when the car, driven by Kopczyk, overturned.

At the same time, Judge Langham imposed a similar sentence on Louis Toth, 20, of Marsteller, Cambria county, when the youth pleaded guilty to being intoxicated when his automobile struck a dwelling in Penn Run last April 28.

Jobless Will Give Testimony

Will Tell What They Think Is Wrong With Relief Situation

HEARINGS BEING HELD AT CAPITAL

(International News Service)

HARRISBURG, May 7.—Delegations of jobless who came here to "picket" the senate chamber today were to be given an opportunity to tell what they think is wrong with relief distribution at the first open hearing of the joint legislative committee probing the State Relief board.

The hearing was called as the senate prepared to vote on a second bill ripping out the present centralized system which has drawn the fire of the unemployed marchers and legislators alike. The bill, sponsored by Senator George Woodward, Philadelphia, creates county relief boards to spend federal and state allocations for jobless aid.

Defeated once and revived, final vote on the measure was delayed by the adoption of additional amendments providing that county board employes in fifth, sixth, seventh and eighth class counties must be residents of the county at least two years and that no employe in those counties be paid more than $150 monthly.

The amendments were sponsored by Senator Alonzo Batchelor, Beaver county, himself the author of a bill ripping out the state relief system and returning distribution to local poor boards.

Chairman Miles Horst, Lebanon, chairman of the relief committee, advanced the time of its first public hearing to this afternoon to permit the spokesmen of the citizens vigilance association of America to testify. They came here from half a dozen central counties. After hearing them, the committee was scheduled to meet again tonight.

Shenango Township Asks City For Taxes

Bill For Road Tax On Municipal Golf Course And Cascade Park $513.80

Members of council in the city building today referred to the city solicitor two tax bills from Collector Ellis F. Shaffer of Shenango township, for road taxes. Shaffer's bill said $363.60 was due on property with a valuation of $51,800, and $151.20 due on property valued at $21,600.

Reference to the assessors books at the court house shows that the assessment of $21,600 is on the municipal golf course, comprising 123 acres. The land is assessed at $14,000, one house $5,000, one $1,500, office at $500 and barn at $500.

The valuation of $51,800 is on 74 acres, comprising Cascade park and Cunningham park. There are 74 acres assessed at $25,000; 7 acres at $700; funny house, $4000; storage house $300; pavilion, $16,000; merry-go-round, $1,500; restaurant, $1,500; office, $1000; dodge'em, $800; other small houses at $800; and an acre strip at $200.

Band Is Given New Instruments

Bass Drum And Tuba Are Donated To High School Band By Elks Lodge

Announcement was made today by J. S. Replogle, director of the Senior high school band, that the band has received two new instruments, a bass drum and tuba, which are the gifts of the New Castle Lodge of Elks.

These new instruments will add to the appearance of the band and are much needed equipment, as they will replace equipment which are owned by students who will graduate this spring, and who have been using their own equipment in the band.

Vinson Bonus Bill Favored

Senate Will Likely Pass Vinson Bill Despite Telegraphic Appeals

(International News Service)

WASHINGTON, May 7—Apparently unaffected by 65,000 telegraphic appeals for passage of the Patman soldier's bonus bill, the senate today appeared headed toward enactment of the Vinson payment plan.

Endorsed by the American Legion, the Vinson bill differs from the Patman bill chiefly in that it provided no method for raising the money to pay off the world war veterans. The Patman bill, as passed by the house, would have the treasury issue new currency. Under the Vinson bill, the cost must be borne by a bond issue or by increased taxation.

The senate seemed to be flying in the face of a presidential veto. It apparently has decided to discard the Harrison compromise, which was reported acceptable to Mr. Roosevelt.

The first test vote will come on a choice between the Vinson and Harrison bill. After that, the parliamentary situation will produce a choice between the victor of the Vinson-Harrison test and the Patman bill.

The Nonpariel Club will stage another shoot tonight at the west side garage at 7:30 o'clock E. S. T. and all members are asked to attend.

The result of the shoot—Rohrer 193, Rod Davis 186, Grodecour 182, Vogt 181, Galbreath 177, Walsh 177, Beckwith 164, Dodds 155, Vessella 154, Fraley 147, Stockman 107, Ryhal 106, Wooley 89.

St. Vitus Supper Plans Complete

Annual Dinner And Entertainment On Wednesday And Thursday

With final plans completed, this year's annual spaghetti dinner and entertainment to be held by the St. Vitus church on Wednesday and Thursday evenings, in the church hall, promises to be a huge success.

Starting Wednesday evening at 6:00, several hundred plates of delicious spaghetti, prepared in true Italian style by Mrs. Mary Biondi and her committee, will be served until 8:30 o'clock, (D. S. T.), the Rev. Fr. DeMita announced. The committee in charge has arranged an amusing program for the remainder of the evening. The same hours will prevail on Thursday evening.

Heading the committee is the Rev. Fr. Albert Farina, assistant pastor of the church; Mrs. Mary Biondi, chairman of the kitchen; Mrs. Lena Cialella, head of dining room, and Mrs. Mary Conti, who is in charge of the dinner. Members of the Mother of Sorrow sodality and Children of Mary will assist in preparing and serving the meal.

PETITION ASKS REBUILDING OF PINE TOP SCHOOL

GROVE CITY, May 7—Patrons of the Pine Top School, south of this city in Pine township, have petitioned the school board of the district to rebuild the school house, which was destroyed by fire three years ago. The petition was referred to the State Council of Education. Pupils have been accommodated in other schools since the fire.

The Pine Township school board has elected a staff of teachers for next year, as follows: Ethel Fleming, Eleanor Orr, Blanche Bolton, Misses Hay, McBride, Black and Osborne, who served last year and Genevieve Hunter, Clair McDougal and E. G. Bowles, as new teachers.

FORTY SEEKING NATURALIZATION IN MERCER COUNTY

MERCER, Pa., May 7—The Naturalization court held today which lists hearings on the applicants of 40 aliens is a greatly reduced number from the average total of 200 that once took the tests in this county.

The reduced number is the result of the depression, the increased price charged for scuring the papers, the reduction in the number of immigrants arriving in this county.

No star has been certainly identified as the Star of Bethlehem. It is common belief among Christians that this was a supernatural phenomenon.

FIVE DEER SEEN BY MERCER FARMER

MERCER, Pa., May 7—M. B. Orr experienced the thrill of a life time and incidentally revamped a glimpse of the pioneer life of his forefathers who settled the farm in Springfield township when a herd of five deer walked calmly from the woods and stopped to feed at the edge of the field Orr was plowing.

Doe and fawns made up the party states the astonished farmer who in a life time of soil tilling never experienced anything like that.

British Explorer Gives Viewpoint

Says "Mysticism And Not Science Holds Key To Future Of Mankind"

(International News Service)

PITTSBURGH, May 7.—Mysticism—and not science—holds the key to the future well-being of mankind.

This was the keynote today of an address which had been given by Sir Francis E. Younghusband, British explorer, author and statesman.

"The future," Sir Francis declared, "is not for the over-estimated scientist but for the much-misunderstood mistic. Mutual understanding among the races of the world and their faiths will do more to strengthen it than anything else.

"The philosophy of the mystic is the absolute key to the world's problems and discords."

Sir Francis, who is chairman of the British National Council of World Fellowships of faiths of London, said he had learned "deep respect for other faiths and races" during his 28 years in India.

Reveal Details Of Plane Crash

Fog And Adverse Flying Conditions Caused Crash Of Big TWA Plane

RADIO OPERATOR'S SISTER IS KILLED

(International News Service)

KANSAS CITY, May 7. The dramatic story of Pilot Harvey Bolton's grim battle with fog and adverse flying conditions preceding the tragic death of four persons was told here by S. D. Welsh, superintendent of the western region of the TWA.

In making the ill-fated TWA plane's radio log public, Welsh said that Bolton reported from Wichita, Kas., at 1:34 a. m. The pilot said there was a 1,000-foot ceiling and a one-mile visibility. At that time, according to Welsh, there was a 900-foot ceiling and fair visibility at Kansas City where the pilot was ordered to land.

Irony Of Fate

A circumstance which lent irony to the struggle against the elements was the fact that Marmaduke Hillias, a brother of Jeanne Hillias, one of the victims, was on duty as radio dispatcher, when the plane arrived over Kansas City at 2:56 a. m. Also at the airport were Mrs. Marmaduke Hillias, his mother, and a sister, Patricia.

Bolton was unable to land on account of a 200-foot ceiling and bad fog conditions. Hillias then ordered the pilot to proceed to an emergency field at Kirksville, Mo. At that time, officials figured, Bolton still had 100 gallons of gasoline or one hour's supply.

School Children Absorb "Movies"

Children Better Able To Absorb "Movies" Than Grown-ups, Is Found By Survey

(International News Service)

HARRISBURG, May 7. — An eight-year-old child can remember three-fifths as many highlights of a movie as an adult—

A boy or girl of 15 years retains 90 per cent as much of a movie as an adult—

These today were the findings of Dr. Edgar Dale of Ohio State University. They were revealed by Dr. Dale at a conference on motion picture appreciation in public schools at the department of public instruction.

Dr. Dale had some other ideas about the movies, too. He said high school pupils now "go to movie" instead of "going to the movies." They criticize what they see and select the shows they attend, he said.

In a three-year survey of movies, Dr. Dale said he found only nine per cent of the pictures had a constructive social implication or goal. All others were individual or personal, he said.

WEDLOCK-CAREER NOT INCOMPATIBLE SAYS GRACIE ALLEN

(International News Service)

HOLLYWOOD, May 7—Jean Harlow, platinum blonde film star, said marriage doesn't mix with a career.

Marriage, says Gracie Allen, DOES mix with a career.

"I don't want to argue with Miss Harlow," said Miss Allen, "but really I think she's wrong. I've been married to a career for eight years now and we've got little Sandra Jean to prove it.

"In fact," says Miss Allen. "I have made a career out of marriage, and a man out of George. I don't know which is the best, but there's a lot to be said in favor of marriage."

George Burns is her husband; also her screen, vaudeville and radio partner.

Miss Allen gave as her formula for a successful mixing of marriage and career "two parts marriage, one part career, add a little dash of bitters, shake well before using, and pour over shaved ice."

WAR DANGER "BUNK" ASSERTS PROFESSOR

(International News Service)

READING, Pa., May 7—Despite a "tense" European situation no danger of war exists in the old world hemisphere, Dr. A. Mendelssohn Bartholdy, professor of international law and relations at Oxford University, England, said on a visit here.

Dr. Bartholdy believes that "cordial relations between France and Italy form one of the best guarantees of peace in Europe."

"The gradual return of Russia to the family of nations has removed some of the apprehension of four or five years ago," he added, in citing other influences working for peace.

The hickory, sequoia, Manolia and sassafras trees, so abundant in America, are found only in fossil form in the Old World.

WHAT'S HE MEAN? "JURY OF PEERS"

PITTSBURGH, May 7—Harvey Katz, who is a salesman, wants damages—for talking in his sleep.

He wants $25,000 from Mr. and Mrs. Charles Davis, in whose home he once roomed.

According to Katz' bill the salesman held long soliloquies in his sleep which so annoyed the tenants that the cops were called and Katz spent a night in the hoosegow. Said Katz:

"I guess I can't help what I do when I'm asleep."

But a jury of peers will decide the issue.

PLAN SECRET FUNERAL FOR BOBBY EDWARDS

Body Is Taken To Edwardsville

Last Scene In "American Tragedy" Slaying Today Or Wednesday

WILL BE BURIED NEAR HIS VICTIM

(International News Service)

WILKES-BARRE, Pa., May 7.—Quietly and secretly the tragedy-scarred family of Robert Allen Edwards today prepared to lay his body to rest in a cemetery near the collieries of Edwardsville where a backyard romance led him into a murder plot for which he atoned with his life in the electric chair.

Accompanied by the father, Daniel Edwards, the body of the 22-year-old mining engineer who died in the electric chair early Monday morning for the "American Tragedy" slaying of Freda McKechnie, 27, was returned to Edwardsville late yesterday afternoon from the Rockview penitentiary.

Funeral Plans Secret

Plans for the funeral were kept secret by the family in order to avoid throngs of morbidly curious but it was believed Bobby will be laid to rest today or tomorrow. His grave will not be far from the one in which Freda lies buried.

Bobby's body was returned to Edwardsville from the death house at the penitentiary in an undertaker's hearse. Behind followed the elder Edwards who was constantly at Bobby's side and instilled in him the courage to face death bravely.

No crowds were on hand when Bobby's current seared body was driven into Edwardsville in the rain and taken to an undertaker's parlors.

Although the elder Edwards and Bobby's brother, Stuart, 16, bore up bravely under the ordeal, his mother, whose plea for mercy had been rejected by Gov. George H. Earle, was reported in a state of near prostration over the execution.

Today

Far-Away Leaves Us Calm.
The Vatican And Japan.
Some Plain Language.
The President And Son.

By ARTHUR BRISBANE

FATAL FLOODS in Brazil follow equatorial rains, lasting five days: four hundred killed, buildings washed away. More earthquake damage in Turkey. Two thousand killed there.

These places are far away. We read the word: "flood" or "earthquakes," read figures "400" or "2,000" and pass on. We do not see, or faintly imagine the suffering, horrible fear, twisted bodies.

Indifference to that which is far off is one of nature's kindest gifts. It saves suffering, when no good could be done.

VATICAN CITY announces arrangements for diplomatic relations between the papal state and Japan. When arrangements are complete, a Japanese ambassador will be sent to the Holy See, and a papal nuncio to Tokio, to replace the apostolic delegate.

Intelligent Japan well knows that the influence of the Pope is by no means represented by the small territory actually under papal rule. What Japan has in mind is the good will of the high intelligence concentrated in the college of cardinals, and the great influence of the Pope, throughout the world.

HARRY L. HOPKINS, federal relief administrator, uses language as plain as that of Mussolini or Stalin. He finds that we have in America a class of "oppressors", rich men, and promises that small oppressive business minority "who extol poverty and profits in the same breath' shall be made outcasts in the 'new order' that is coming.

EVERY FATHER will be interested in the President's plan to have his oldest son, James Roosevelt, work beside him in Washington as unofficial secretary, as reported in a dispatch from Washington. The younger Roosevelt, graduate from Harvard five years ago, may live to play an important part in America. The German proverb says: "All good things are three,' and we have had two Roosevelt presidents.

THE BEST statesmanship school is with an able statesman-father, as proved by Lord Catham, father of William Pitt, who learned statesmanship at his father's side, met everybody at his father's table, was Chancellor of the Exchequer at 23 and Prime Minister, which means ruler of England, at 24.

This made it possible for young Nelson, afterwards England's greatest sailor, to reply to an old official who refused to take orders from a mere boy: "Sire, I have the honor to inform you that I am the same age as the Prime Minister of England."

THE REPORTER is probably mistaken who says the President wants his son to report the "psychological reactions" of the people to the New Deal's plans.

The President's son would get few sincere comments concerning his father unless he dyed his hair and wore false whiskers.

SOME AIRPLANE news. Russia admits owning three thousand fighting planes, besides nine hundred always kept with a big submarine fleet, within four hundred miles of the coast of Japan, "purely in the interest of peace.' Russia says officially:

"An enemy can be certain that if he attacks the war will be waged on his own territory."

Any enemy attacking this country, unfortunately, would find our cities wide open inviting aerial bombing operations. But the President intends to change that.

FRANCE, INVESTIGATING a German Lufthansa passenger plane at Le Bourget is horrified to find "a regular bomb launching apparatus" in the plane's baggage compartment. Such a condition would exist as a matter of course, since Germans are intelligent.

ITALY, ACCORDING to a sound correspondent, expects to be busy fighting Abyssinia, and the "direct descendant of King Solomon and the Queen of Sheba' 'this fall, Mussolini anticipating no serious trouble with Germany. That nation, he believed, is "bluffing" Europe, and will get what she really wants without fighting for it.

WHEN YOU READ this, Robert Allen Edwards will have taken his seat in the electric chair at Rockview, Pa. Reporters give a pathetic description of his mental agony, and of the agony of his father, mother and brother, with whom all must sympathize.

It is sad for a young man of 22 to take his place in what criminals call "the hot seat". BUT young Mr. Edwards, because he wanted to marry a younger and prettier girl, killed Freda McKechnie, whom he had promised to marry.

He threw her into a lake, struck her on the head as she begged for help, drowned her. And killing her he killed her unborn child. The electric chair is an abomination in a civilized country, but if some must sit in it, that young murderer was well chosen.

A new color of the season is oxblood, which really is just another name for wine red. It goes well with navy, gray and beige.

Would List All Liquor Peddlers

State Senator G. Mason Owlett Proposes Keeping Names Of Liquor Peddlers

(International News Service)

HARRISBURG, May 7.—Senator G. Mason Owlett, Tioga, wants the liquor control board to keep a book containing the names of all persons peddling liquors, or attempting to do so, for state store shelves.

A bill requiring the board to register all liquor agents in book kept for that purpose today had been introduced by Owlett and sent to committee. Names of the firms the individuals represented also would be listed.

Evidence before the house liquor inquiry committee has revealed that public officials by the score have visited the board as agents for various brands of liquor.

Senator Andrew J. Sordoni, Luzerne, sponsored a bill prohibiting the tattooing of minors without consent of their parents.

Dr. Bennett Goes To Harrisburg Hearing

County Relief Board Head To Sit In On Session; Will See Johnson

Dr. G. S. Bennett, chairman of the Lawrence County Emergency Relief board and a member of the state committee of the county welfare program now being sponsored by the Pennsylvania Public Charities association, left this morning for Harrisburg to attend a special hearing which the state government committee of the senate opened today on the two county welfare program bills of State Senator Frank J. Harris, Allegheny.

After the hearings Dr. Bennett is to confer with State Relief Director Robert L. Johnson. He will return here Wednesday evening.

Dr. Bennett has been an ardent supporter of the Harris bills which would revise the entire state relief distribution system by establishing welfare districts which would receive allocations from the department of welfare.

The New Castle public heard of the new program at a mass meeting at the First Christian church several months ago.

Alleged Chinese Slayer On Trial

(International News Service)

PITTSBURGH, May 7—Woon Tung Fat, 30, Wilkinsburg, went on trial here today for the murder of Gee Wo, 51, another Chinese, who was found dead in his laundry last January 7.

Fat was arrested in the laundry, which had been willed to him by Wo. The commonwealth will contend, assistant District Attorney Russell Adams said, that Fat was aware two laundries had been willed him and that this was the motive for the slaying.

OVER MILLION POUNDS OF WOOL SOLD IN MERCER

MERCER, Pa., May 7—The fact that over one million pounds of wool have been sold co-operatively through the Mercer County Wool Growers Association of Mercer Co., since its organization in 1919 is an indication of how this ancient pursuit has been rejuvenated in Mercer County as result of this organization.

In 1934 there were 450 sheep growers that contributed to the pool the largest number in the State.

The 1935 pool will be gathered and shipped in June.

Then she forgot about daylight savings time and showed up one hour late. She was too late to get on the jury but received her fee of $3.

Governor Names Woman To State Board Of Censors

(International News Service)

HARRISBURG, May 7.—Gov. George H. Earle's second appointment to the state board of censors, Mrs. Hester M. Fye, Waynesburg, had been sent to the senate today for confirmation. The post pays $4.500 annually.

Mrs. Fye, considered a patronage plum for Rep. Roy E. Furman, Greene, who was Democratic floor leader when most of the administration's tax bills were pushed through the house, was named to succeed Mrs. Mary J. Kerr, whose term expired. The appointment was for four years.

Shortly after taking office, Governor Earle named L. Howell Davis, Philadelphia, to succeed Samuel D. Schwartz, Philadelphia, as chairman of the board. Davis was confirmed by the senate.

YVONNE DRIVES CAR INTO TRAFFIC LIGHT AND POSTS

GROVE CITY, May 7.—Yvonne Brunner, companion of Colette Mulvihill when the Pittsburgh oil heiress eloped to Wellsburg, W. Va., with truck-driving Tommy Creen, and who last fall disappeared from her home near here while police of several states sought her and a young Grove City benedict, has involved another boy-friend in trouble.

The 18-year-old blonde drove Bennie Domraini's coupe into a traffic light at the corner of Main and Broad streets, wrecking the two standards, and the automobile, and extinguishing the entire "whiteway" lighting system in the business district. If Bennie pays the bill for the lights submitted by the city fathers, it will put a $148.25 dent in his bank-roll.

Yvonne had no operator's license, and after spending two hours in the city jail relatives posted $15 for her appearance before Burgess Van Eman. She was fined $12.50, and Bennie agreed to reimburse the city.

Plan Celebration For St. Anthony

Italian-American Citizens To Sponsor Observance Here June 12 And 13

At a meeting held in the home of Angelo Gughuciello, plans were made to sponsor a celebration in honor of St. Anthony on June 12 and 13. The group decided to have a celebration in spite of adverse conditions, and named Mr. Gughuciello, general chairman.

The plans call for the erection of a band stand at the foot of Phillips Hill, where a free concert will be given. There will also be fireworks on each of the evenings of June 12 and 13.

St. Anthony's memory is honored each year by local Italian-Americans, and the committee believes the coming event will be one of the greatest yet held here.

The cotton suit is making its presence felt this spring. It is two-piece and tailored with jacket in the accepted spring style in fitted or more individual arrangement of double box pleats at back.

EVENT WILL BE IN LEGION HOME

Arrangements have been completed by the committees representing the Corporal Harry L. McBride post, Veterans of Foreign Wars, and the ladies auxiliary, for the annual Mothers' Day banquet, which will take place Wednesday evening at 6:30 D. S. T. in the Legion Home.

The dinner will be a tureen affair, with the auxiliary members in charge of this feature.

As has been the custom in past years, the Gold Star Mothers will be special guests, and following the dinner, a formal program will be carried out.

The Veterans of Foreign Wars post has been honoring their mothers with a dinner for the past ten years, the event taking place during the week preceding Mothers' Day, which will be observed next Sunday.

The tomato is a native of tropical America and was introduced into Europe in the 16th century, probably by the Spaniards.

Plan New Moves To Free Mooney

Seek To Provide Freedom For Tom Mooney And His Companion, Warren Billings

(International News Service)

SAN FRANCISCO, May 7.—Three movements were afoot today to provide freedom this year for Tom Mooney and Warren K. Billings. The pair have been in prison for nearly 19 years following their conviction for participation in the 1916 Preparedness Day bombing in which ten persons died.

Those who have battled consistently for Mooney's freedom believe chances for final action on the celebrated case are the best they ever have been.

Outline Plans

The three movements to free Mooney and Billings are:

1. A state campaign to urge that Governor Merriam commute their sentences. The governor has promised to give consideration to the request.

2. Movement in Washington, D. C., to interest the president in the case and to call upon him to persuade Governor Merriam to pardon them.

3. A petition for a writ of habeas corpus (for Mooney alone) is on file in the state district court of appeals which may eventually find its way to the United States supreme court.

National Farm Outlook

Written for Central Press
By ARTHUR H. JENKINS
Editor, The Farm Journal

THE cotton program of the AAA, or rather of the New Deal—because some of the measures taken to help cotton are altogether outside the AAA—is facing black and threatening storm clouds.

For months and months observers have been pointing out the dangers in the situation, the worst of which has been the steady loss of foreign export sales of cotton. All at once, as it seems, the south has come to a realization that more than half the total market for American cotton is threatened, and is demanding frantically that something should be done about it.

Simultaneously, the cotton textile trade has launched a campaign to abolish the cotton processing tax, on the ground that this extra item piled on the cost of cotton makes the cost of cotton goods so high that consumers will not buy. If acreage rentals and benefit payments have to be paid, they say, go ahead and pay them, but take it out of the treasury, or out of the president's $4,880,000,000, not out of the processing tax.

* * *

SHARECROPPERS' MISERIES

Still another storm, with something of a political tinge, is raging over this thesis: That cotton renters and "share-croppers" are getting a raw deal from landlords, and always have, and the social-economic system of cotton growing should be reformed.

Of this last controversy, not very much need be said. It does not bear on the main difficulty, and I have some suspicion that it is being agitated by some people in the hope of multiplying the troubles of the AAA. Undoubtedly the position of many small cotton renters and croppers is miserable; but it is not so certain what can or should be done about it.

* * *

MILLS LACK ORDERS

Nor is the campaign of the cotton textile mills likely to produce concrete results, at least for the present. That the mills lack orders, in many cases, is true enough. That higher prices in this country permit Japanese mills to sell us cotton textiles, in microscopic quantities, is true enough.

But it is not true that cotton goods are inordinately high, in relation to other prices, and what increases have occurred in the last 18 months are due, not to the price of raw cotton or the processing tax on it, but to the higher wages and shorter working hours introduced by the NRA.

It is for this reason that farmers may very reasonably ask why, if the NRA has made it hard to sell cotton goods against other textiles, and against Japan, the price-stabilizing system of the AAA should be disrupted to counteract that particular blunder.

* * *

DWINDLING EXPORT MARKET

But the basic trouble in the cotton country, as I have said, is neither oppressed share-croppers nor disgruntled cotton mill stockholders, but the dwindling export market. And this must certainly be blamed on too high an asking price for American cotton.

My own remedy, in case you are interested, has long been a revision of the AAA and Bankhead Act and Farm Credit Administration, by which cotton would be separated into two channels, domestic and foreign, with different price levels. This would put a profitable price only on what our own people use, and let the export price drop to whatever point is necessary to sell the cotton against any competition.

It is a good plan, but whether the south is looking for new plans at present is another question.

The south is more likely, I should suppose, to get the sudden idea that it will scrap all plans, and go back to first principles. That would be unfortunate, but if the south reaches that decision, it probably has the votes and influence to do it.

That is why the AAA and many others are watching the cotton country just now, and keeping their fingers crossed.

Lions Given Tips On Parliamentary Law

Mrs. Thomas A. Gilkey, Speaking Today, Cites Robert's Rules

"Parliamentary Procedure" was the topic of an educational luncheon talk which Mrs. Thomas A. Gilkey, official parliamentarian for the Woman's club here and student of parliamentary law, gave before the Lions club today.

The "dos" and "don't" of parliamentary procedure, based upon the books of General Henry M. Robert, recognized authority on parliamentary law, were interestingly reviewed. James L. Vogan introduced her.

"If we learn things that we shouldn't do," said Mrs. Gilkey in closing, "we're in better shape to learn the things we should do."

The Lions today authorized President Arthur H. Borland, Uno Leivo, Joseph Leyde, Dr. T. J. Fletcher, William Fenton, Jr., and Thomas I. Elliott to act as official delegates for the club at the state convention in Washington, Pa., on May 12, 13 and 14.

The STAMP ALBUM

IMMANUEL KANT is hailed as one of the greatest philosophers of modern times. His "Critique of Pure Reason" ranks with the greatest of metaphysical treaties. His system of philosophy aimed to join the realms of reason and experience and provided an answer to the eternal philosophical conflict between mind and matter. Kant, who lived from 1724 to 1804, and lectured at the famous University of Konigsberg, was honored by his fatherland in 1926 when Germany issued a stamp bearing his portrait. He is one of the few philosophers to be so honored.

Super-Highway Plan Discussed

Pittsburgh - Harrisburg "All-Weather" Route Through Mountains Planned

(International News Service)

HARRISBURG, May 7.—The proposed "all-weather" super-highway between Pittsburgh and Harrisburg through the mountains received renewed legislative impetus today as it became known the Earle administration is actively attempting to obtain federal funds for the project.

Sponsored by the administration, a bill was introduced by Senator T. Gelder, Susquehanna, chairman of the Senate highways committee, empowering the secretary of highways to construct and operate toll tunnels on state highways.

"We are working on the proposal to build an all-weather highway between here and Pittsburgh," Secretary of Highways Warren Van Dyke said. "This is a preparatory bill which will enable us to operate toll tunnels if such a route is constructed."

Van Dyke said plans for the highway are in a nebulous state at present. If the route is constructed he said federal works relief money would be required. The project would be self-liquidating through the tolls at the tunnels.

Engineers studying the possibility of the route have estimated its cost at about $50,000,000, Van Dyke said. They have not determined whether the abandoned tunnels of the South Penn railroad could be used or whether new tuneels would have to be built. Neither has there been any decision as to whether the route would be an entirely new one or built to connect with the Lincoln highway on either side of the mountains.

WANT HIGH LIGHTS AT "SOCCOR" GAME

PHILADELPHIA, May 7—President Roosevelt, Gov. George H. Earle and Mayor J. Hampton Moore of Philadelphia, have been extended invitations by the United States football association to attend the first international soccor game between the United States and Scotland, here May 18.

The game will be the first appearance of the famous Scottish team that defeated England's international team of Glasgow by a 2-0 score several weeks ago before a crowd of 130,000 including the Prince of Wales.

Large Crowd At Endeavor Rally

Over 400 Attend County Christian Endeavor Sessions At New Wilmington

INSTALL OFFICERS DURING PROGRAM

In spite of the rainy weather Sunday afternoon, Junior Christian Endeavors, Intermediate, Senior Endeavors from Lawrence county rallied in the Neshannock Presbyterian church in New Wilmington. The total attendance was over 400.

The affair was quite an innovation, being the first joint rally ever held, and it proved most successful in every way, and all those who attended had an enjoyable and beneficial day. The theme, "Building For Christ," was followed throughout the program.

A greeting was given to all by Shirley Davis, a junior Endeavorer from the host church. Little Fred Schodder, a Bessemer junior, sang, "Teach Me To Pray." Three selections were rendered by members of the Enon Valley chorus under the direction of Mrs. Andrew J. Koonce. An impressive demonstration of "The Christian Endeavor Pledge" was given by the Mahoningtown Presbyterian intermediates.

During this introductory part of the meeting musical selections were rendered by the Calvary Presbyterian junior orchestra. Griff Thomas led the congregation in singing, accompanied by Mrs. Allen B. Davis.

Seniors went to another room in the church to hear an address given by Rev. Rees T. Williams, of the First Congregational church. He took his text from the prophesy of Ezekial in saying "I sought for a man among them who should build up the hedge and stand in the gap before me for the land, so that I should not destroy it; but I found none." He pointed out that there have been nations as great as this that have crumbled into ruin because, in their hour of triumph, they forgot their God. He stated that the moral law is still the same: "Whatsoever a man soweth, that shall he also reap." Our call, he said, in this interesting age, is to be the person who should "build up the hedge and stand in the gap."

Install Officers

The following Endeavors were installed in office:

President, Theodore Pollock; first vice president, Harry Huffman; second vice president, Leyshon Coughlin; secretary, June L. Campbell; corresponding secretary, Margaret Phillips; treasurer, Ralph A. Newton; pastor counsellor, Rev. D. C. Schnebly; junior superintendent, Merle Riley.

The appointed committee chairmen are:

Publicity, Kenneth Gaston; temperance, Mary Archetta; evangelistic, Harry Wilson; quiet hour, Mrs. Evelyn King; music, Griffith Thomas; social, Clara Bernine; floating, Gaylord Shaw; missionary, Alice Grimes; membership, Leyshon Coughlin.

While the seniors were enjoying their meeting, Rev. Andrew Koonce, of Enon Valley, spoek to the juniors on "Building For Christ." He took his text from Malachi. He gave three reasons why God calls his children jewels: because they are valuable, they are hard to polish and they are cut out and shaped.

The custom is that the Junior Endeavor having the highest percentage of attendance, receives the banner to be kept for 6 months. Both the Bessemer Junior Christian Endeavor and the Mahoningtown Presbyterian Endeavor had 90 percent; so Mahoning will keep the banner for three months and then it will go to Bessemer for the remaining time.

OUT OF HOSPITAL

Angelo Mottle, of 1702 Moravia street, who was injured in an automobile accident on the Butler road, over the week-end, returned to his home from the New Castle hospital, Monday afternoon.

Velvet trimmings are being used more and more on frocks of very sheer materials. That's a style that harks back, methings, to grandmother's day, and it's always charming.

AROUND CITY HALL

Police chronology for 24 hours ending at 3:30 p. m., May 6, two arrests on charges as follows: Complaint of mother, 1; and drunk and disorderly conduct, 1.

Police yesterday put a new name on the police docket, "John Louzzy," said prisoner having for some time made his headquarters at the police bunk room. Time and again other persons who by force of adverse circumstances spent nights in the bunk room objected to his presence, according to police and he was told to beat it fast and far. Sunday he went to the Neshannock creek and each time someone came along he threatened to leap into the water. Finally someone tired of the cry "wolf" and he landed in a police cell where it appears he will be deloused.

There is a probability that the name "West Side Park" may be changed to "McCleary Park" by city council. As yet no definite move toward this had been taken. A request that the change be made was contained in a letter sent by Nellie B. Brooks, corresponding secretary of New Castle Perry Chapter, Daughters of 1812 to council. The letter reads: I am writing to ask a very great favor of council which concerns a grand old lady and our only real daughter of the New Castle Chapter, Daughters of 1812—Mrs. A. B. McCleary, age 93. Mr. McCleary's grandfather, Samuel McCleary, owned 500 acres of land which included the park on the West Side. He gave this ground to be a park forever and no road to be cut through this park. This information dates back to 1808, when he came to this country. When the little red schoolhouse on the West Side was burned down the school board decided they would build the new school building on the ground donated by Mr. McCleary. They were informed they had better go to the Mercer courthouse and hunt up the records (I'm quoting Mrs. McCleary's words.) Mrs. McCleary's husband was in the Civil War as well as eight other members of the family. His grandfather was a soldier of the war of 1812. Now, to please this dear old lady as well as honoring the soldiers, why not name the park McCleary's Park?"

Operation of the city government on Daylight Savings Time has resulted in one or two instances of confusion on the part of persons who have business in city police court. For several days past Mayor Charles B. Mayne has conducted police court at 8 a. m., E. S. T. or 9 a. m., Daylight Savings Time. Some who were to appear as witnesses came one hour late for the trial.

Police Chief John F. Haven has given all his safety lessons and from now on will be able to tell how thoroughly the lessons were studied. A "special" for each day was given and police were supposed to watch on that day for violations of the "special" question. According to the chief of police he found that many of the younger people and non-operators were vitally interested.

Sometime this week members of the Progressive club of the Seventh Ward, will meet with council and out of the session may come a decision by the solons to make some improvements in the Seventh Ward. They want the Fulkerson road improved, Montgomery street grade crossing removed and a playground built. It would be a good idea if all grade crossings could be eliminated.

Hopkins To Be Czar Of Works Relief Program

Will Have Absolute Authority In Dictating Wages And Who Shall Work

UNIONS WILL NOT BE RECOGNIZED

By ARTHUR C. WIMER
Special Washington Correspondent, New Castle News

WASHINGTON, D. C., May 7.—Probably better than most incidents does the plan of Federal Relief Administrator Harry L. Hopkins for smashing all union lines in administering the new work-relief program emphasize the inconsistency of the philosophy motivating some New Deal schemes.

Under executive order issued by the president, Mr. Hopkins has been set up as supreme dictator over expenditure of federal work-relief as well as direct relief funds. He alone will determine what workers shall be employed and what wages shall be paid on all work-relief projects. In short, he will serve as master foreman over projects included in the new relief program, be they private, local, state or federal.

To Treat All Same

It may be explained that under this policy if a private, local or state agency borrows federal money, Mr. Hopkins automatically becomes dictator and the agency involved loses all authority save responsibility for the debt. Mr. Hopkins supervises contracts and then tells the successful bidders how they shall conduct their building activities, whom they shall employ, what rates they shall pay, and how they shall purchase their materials.

In fact as well as theory, Mr. Hopkins becomes boss of the jobs, and he has told newspapermen that in bossing he is going to accord the same treatment to those in need, irrespective of their union affiliations or lack of such affiliations.

In other words, when a contractor secures a job under the new work-relief program, Mr. Hopkins will tell him what men he must take off relief lists and put to work. If the contractor happens to operate a union shop with union foremen, he will nevertheless be required to employ non-union as well as union men, and even those who may have known records of strike-breaking. Similarly, if the successful contractor is noted for his open shop policy, union workers who happen to be on relief rolls will be forced to take jobs with him.

Situation Beclouded

Into an individual construction project, Mr. Hopkins will drive union and non-union workers, shoulder to shoulder, with the threat that if they refuse they will be stricken from relief lists. Now irrespective of the merits or demerits of Mr. Hopkins' plan, it is certainly contrary to that long-time fight of organized labor for union recognition which has always opposed operation of union and non-union men together on the same project. And the situation becomes even more beclouded when it is recalled that in the past Mr. Hopkins has been paying federal relief money to strikers who have walked out of their jobs in fights for union recognition.

On the one hand, Mr. Hopkins proposes to demolish principles upon which unionism is founded through use of work-relief money. On the other hand, he has been using direct relief funds to sustain strikes seeking union recognition. It is difficult to compromise the two.

New Philosophy Issued For Russia

Josef Stalin Announces New Program For Soviet Union

By LINDESAY PARROTT
International News Service Staff Correspondent

MOSCOW, May 7.—In one of his most important speeches in several years, Josef Stalin on Monday announced what is held by Soviet authorities to constitute a virtually new philosophy of the Soviet union.

It demands, they said, removal of emphasis upon machines and greater attention and humanity toward the masses of workers.

The old slogan of the Soviet union, a "Technique Is Everything"—technique meaning technical equipment in Russian phraseology—is now outworn, Stalin said. Replacing it, he declared, must be a new creed—"Cadres Are Everything."

By "Cadres" the Soviet union understands trained personnel in both high and low ranks, in other words, the men behind the machines.

The Russian dictator announced the new policy in addressing graduates of schools and staff colleges of the Red army, during which Soviet leaders praised the army's achievements.

Outlining the problems of the U. S. S. R. since the revolution, Stalin attempted to justify the industrialization program even at the expense of the population's comfort, declaring it was necessary unless Russia was "to become the plaything of international imperialism."

"It is true," he said, "that we had to trample certain comrades under foot, but this was unavoidable and I confess I myself lent a hand. Now we have passed from a period of famine in the domain of technical equipment and entered a period of famine in the domain of untrained men.

"If we had a sufficiency of these, the country would receive a three or four times greater return on its equivalent than it now receives. Leaders of our enterprises must give careful attention to workers great and small, help them and push them forward."

MOVING WHOLE PALACE
(International News Service)

BERLIN—An entire five-story palace is to be moved back 30 feet to allow a widening of the street. It is the "Ephraim Palace", generally regarded as the finest 18th century private house in Berlin. It was built in 1766 by Veitel Ephraim, the Jewish mint-keeper and court jeweller of Frederick the Great. It is now public property. The palace will be dismantled and set up again stone for stone on the new site.

Would Create Authorities To Supervise Work

Semi-Public Corporations Would Be Created To Handle Public Works In State

SUGGESTED BY FEDERAL HEADS

By G. EVERETT DOYING
International News Service Staff Correspondent

HARRISBURG, May 7.—A vast network of semi-public corporations, known as "authorities," which would stretch into every unit of state government, is contemplated in a series of administration bills which today was beginning to receive attention in the house.

All of the bills were designed to facilitate expenditure of the state's share of the $4,000,000,000 public works fund by setting up an auxiliary arm of government with wide powers and without the hampering restriction on borrowing which obstruct state and local governments.

Federal officials recommended the bills to Gov. George H. Earle to speed the federal works program. The series is one of the last phases of the administration legislative program.

Wide-Spread Authority

Authorities created by the bills would be given far-reaching rights to create and administer projects effecting nearly every phase of daily life—housing, lighting, gas and heating plants, water supply, parks and playgrounds, sewage disposal and a variety of others.

Power of eminent domain and authority to issue bonds were granted in all the bills. Authorities would operate semi-independently of the government creating them. Their debts would not be debts of the taxpayers, but their activities would be confined to projects in the public interest.

Four of the authorities would be state-wide in their functions. They are the general state authority, the rural electrification authority, the housing authority and the commonwealth institutions authority.

Except for the first named, the state authorities are self-explanatory by their name. The general authority would be empowered to purchase, construct, lease and operate bridges, tunnels, streets, highways, traffic circles, airports, hangars, parkways, recreation grounds, public parks, swimming pools, lakes, dams, sewers, sewage system and disposal plants and "other projects" except those handled by the other three authorities.

Municipal Units

Supplementing the state housing authority would be smaller housing authorities created by local governments, as provided in another bill. Still another measure authorizes state and local governments to cooperate with the housing authorities by rendering services, conveying property, providing streets and making grants and loans.

The broadest bill creating local authorities would permit, by popular referendum, creation of city, borough or township authorities to furnish water, gas or electric heat, light and power and sewage disposal services. Local authorities for general public projects also are provided.

While the rural electrification authority would be empowered to spread electrical service to rural districts, other bills provide for "power districts" which would be authorized to conduct and operate electric utilities and a "non-profit membership corporation" to make electricity available at the lowest possible price.

Mussolini Responds To Abyssinian Government With Mobilization Order

(International News Service)

ROME, May 7.—Responding to the recent general mobilization order of the Abyssinian government, Premier Benito Mussolini today kept the Italo-Abyssinian African controversy simmering by ordering a sweeping mobilization of soldiers of the regular army, Black Shirt Militiamen, reserve troops, and Eritrean natives.

The new mobilization, announced in an official communique, called to the colors the "Sabauda" division of the army, two divisions of Black Shirt Militiamen, and four additional Black Shirt battalions.

Recalled to the colors was the contingent class of 1913 which now is fully under arms, together with the classes of 1911 and 1914.

The order was flashed across the Mediterranean to mobilize a second native division in Eritrea.

Subjects Everywhere Honor King George

(International News Service)

OTTAWA, Ont. May 7.—Esquimaux, Red Indians, even the Dionne quintuplets, and virtually every citizen of Canada from coast to coast paid tribute to King George V Monday in celebrations marking his silver jubilee.

Loyal esquimaux participated in official ceremonies in remote sections of the far north, and lucky ones with radios available were able to hear the biggest broadcast in the history of the Canadian radio commission, a seven hour jubilee program including a relay of ceremonies in England.

In prarie reserves, Indians in full regalia celebrated with special dances and pow wows. Boy Scouts held large rallies throughout the nation.

The Dionne quintuplets celebrated the jubilee in a special way of their own. They wore no medals, and no union jack fluttered over their hospital home near Callander. They honored their royal guardian by waving their arms to prove they have completely recovered from their recent illness and are healthy and happy once more.

Passenger Gets Scared On Plane, Grabs At Pilot

Frightened Passenger Grabs Pilot Around Neck, Plane Crashes

(International News Service)

BATTLE CREEK, Ia., May 7.—Grabbed around the neck by a frightened passenger, Pilot Grogan lost control of his plane and crashed here Monday after becoming lost in a fog.

Neither the passenger, a Mr. Massie of Omaha who chartered the plane, nor two pilots were injured. The craft was damaged slightly.

Traveling from Omaha to Minneapolis, Pilot Grogan got off his course in the dense fog and was preparing for an emergency landing. The passenger became frightened and grabbed the pilot around the neck, causing the plane to nose dive.

Massie returned to Omaha by train, and Pilot Grogan and Co-Pilot Parker remained here while the plane was being repaired.

Over-Taxation Given Blame

President's Textile Committee Hears Causes Of Industry's Ruin

OVER-LEGISLATION SHARES BURDEN

(International News Service)

WASHINGTON, May 7—Over-taxation and over-legislation, and not obsolete equipment, has ruined the textile industry of New England, President Roosevelt's cabinet textile committee was told today by Massachusetts manufacturers and members of congress.

Among speakers appearing today were: Ernest N. Hood, Salem cotton manufacturer, and members of the Massachusetts congressional delegation.

"Several factors which are most adversely affecting cotton operations in New England," Hood declared, "are in the order of their importance."

"Failure to regulate production to demand, wage differential, processing tax, increased imports, and loss of exports.

"The processing tax has added ten percent to the cost of every sheet we turn out, or more than nine cents per sheet. When this is pyramided by distribution through the wholesalers, the retailers, and the consumers, the tax upon the public amounts to sixteen cents per sheet, or a sales tax of 12 cents on every household for each bed sheet.

"The cotton farmer has been helped, but the average mill stock-holder is receiving no dividends on his investment. Working hours are reduced and therefore payrolls are low and the pay envelop is getting thinner.

"By supplying a general sales tax the farmer would be equally assisted and the burden would be removed from the mill. I cannot imagine any one legislative act which would work more to the advantage of the cotton textile mill, its employes and the general public than to remove the processing tax as now applied.

"The textile industry urges a study of the question of imports so that all counties may be placed on a quota, which shall limit importations to not more than the annual average between 1928-1932."

New Deal Is Not Batting So Well

Only One Hit Made By New Deal In Supreme Court In Four Times At Bat

(International News Service)

WASHINGTON, May 7.—The new deal's score in the supreme court today was:

Won, 1; lost, 3; percentage .250.

In four cases affecting laws passed in the Roosevelt administration, the high court has held three unconstitutional.

They were the oil production section of NIRA, a section of the economy act and the rail pension case, decided yesterday.

The government, however, won the gold cases, perhaps more important than all the others combined.

The NRA is on deck, with a decision expected in the next few weeks.

Soil Erosion Plans Outlined

Comprehensive Program Needed To Halt Alarming Soil Erosion In U. S.

(International News Service)

CINCINNATI, May 7.—Within 50 years all but 150,000,000 of acres of the fertile land of the United States will be destroyed unless soil erosion is halted by a comprehensive campaign.

Continuance of the manner in which the soil is now being squandered means "this country has less than one hundred years of virile national existence," Morris L. Cooke, of Philadelphia, of the national resources board, warned the annual convention of the American Water Works' association today.

Program Advocated

Cooke advocated a 20-year national public works program in which soil erosion, flood control, navigation, electric power development, reforestation, recreation and other objectives would be coordinated. He declared an annual expenditure of $500,000,000 would be justified.

"If we are to win out against the accellerated progression of this gangrenous growth of soil erosion," he said, "we have probably less than 20 years in which to develop the techniques, to recruit the fighting personnel, and, most difficult of all, to change the attitude of millions of people who hold that ownership of land carries with it the right to mistreat and even destroy their land."

Expenditures Pass $6,000,000,000 Mark

Figures Today Slightly Less Than $100,000,000 For Same Period Last Year

(International News Service)

WASHINGTON, May 7.—Government expenditure May 4 passed the $6,000,000,000 mark for the first time during the current fiscal year, starting July 1.

Today's figures were slightly less than $100,000,000 in excess of the same period last year.

For emergency purposes, the government spent $2,979,900,000 as compared with $3,306,824,000 the same period last year, the decrease being due to the heavy repayment of RFC loans.

The RFC this year showed expenditures of $346,300,000 against $1,369,000,000 last year. Most other items showed heavy increases, headed by federal emergency relief at $1,016,900,000, against $172,765,000 last year. In part this increase was due to certain new activities.

Total receipts amounted to $3,145,494,000, against $2,559,500,000 last year.

The deficit May 4 was $2,867,000,000 against $3,379,000,000 last year.

Fishing Vessel Sends For Help

Coast Guard Cutters Speed To Area In Which Morro Castle Burned Up

(International News Service)

NEW YORK, May 7.—Three coast guard cutters, two airplanes and three motor life boats were scouring the fog-shrouded "graveyard" area off the coast of Seabright, N. J., today for a small fishing schooner which sent out an S. O. S.

The distress call, which was sent out over a short wave set, was picked up by Alden W. Smith, 26, a lew student at the University of New York, at about 1 a. m.

When he relayed his information to the coast guard, which does not receive short wave calls, boats and planes were sent speeding to the neighborhood of the Atlantic which claimed the luxury liners Morro Castle and Mohawk.

New York Man Says Abductors Robbed Him Of $10,000 And "Dumped Him Out"

(International News Service)

PHILADELPHIA, May 7.—Police here today checked the story of a New York man that he had been forced into an automobile in that city, robbed of $10,000 and finally tossed from the car in west Philadelphia after an all night ride.

The man, whose name was withheld, told detectives he was abducted by five men in New York yesterday as he was on his way to deposit the money in a checking account. Tossed from the car this morning, he reported the robbery and abduction to detectives.

Freshmen Are Drive Leaders

Library Building Campaign Makes Progress At Westminster

OTHER NEWS OF COLLEGE EVENTS

(Special To The News)

NEW WILMINGTON, May 7.—With 72 per cent of the freshmen students at Westminster college already included on the list of contributors to the new liberty fund, the first-year class is leading the other three college classes in the student drive. The junior class is next with a record of 70 per cent; the sophomores are third with 58 per cent; and the seniors are last with 45 per cent.

Due to the fact that a large proportion of seniors are away from the campus as cadet teachers, the senior class drive has not been completed. It is thought that all four classes will reach the 100 per cent mark by early next week.

In addition to individual contributions, the sophomore class has also contributed $79, the proceeds from the class dance held May 4. Other class projects may also be devoted to increasing the library fund, which has already passed the one-fifth mark of the total needed for the new structure.

FACULTY DINNER

Members of the Westminster college faculty will hold the annual formal dinner of the organization at the New Castle Field club Thursday evening at 6 o'clock. Approximately 60 will attend the event. Members of the committee in charge include: Miss Mildred Ailman, Mrs. Harold Brennan, Mrs. A. T. Cordray, Mr. Walter Biberich, and Mr. Ross Ellis.

TO PRESENT CONCERT

Thirty Westminster college students, composing the college orchestra, will present the annual concert of the organization in the United Presbyterian church tonight at 8:15, Professor Alan B. Davis announces. The orchestra, directed by Professor Donald O. Cameron, will have a program of classical music. Tonight's program is the fifth in a series of musical events to celebrate national music week.

PLAN DINNER-DANCES

Kappa Delta sorority at Westminster college will hold its annual formal dinner-dance at the New Castle Field club Friday evening. Alpha Gamma Delta sorority will hold its formal at the Field club on Saturday evening of this week.

Next Saturday, May 18, Chi Omega will hold its dinner dance at the Field club, and Beta Phi Alpha sorority will hold its formal at The Castleton hotel, New Castle. Theta Upsilon sorority's event is scheduled for the Field club on Friday, May 24; and Sigma Kappa will hold its dinner-dance at the Field club on Saturday, May 25.

TO MEET MAY 18

The Modern Language Association, Pittsburgh district, will hold its monthly meeting at Westminster college on Saturday, May 18, Miss Elizabeth Stewart, head of the modern language department at Westminster, announces.

Members of the association will be guests of the college at a luncheon in Hillside. A short musical program, directed by Professor Alan B. Davis, will follow. The meeting of the association will be held in the afternoon.

PUPILS STAGE STRIKE IN STRUTHERS SCHOOL

STRUTHERS, O., May 7.—Between 900 and 1,000 junior and senior high school students walked out of Struthers High school today, in a strike against plans to dismiss four teachers.

Friends of the teachers have declared they are to lose their jobs because of their activity in the Struthers branch of the American Federation of Teachers. Superintendent H. C. Zuber has charged various offenses, ranging from "inefficiency" to talking too much and trying to tell the school board how to run its affairs. The teachers have made no statement.

SUNNY LIVING starts at the table

How you feel and how you look depend largely on the foods you eat. The balanced menu provides the "bulk" to prevent common constipation—caused by lack of this essential fiber.

Common constipation frequently causes headaches, loss of appetite and energy. Yet, in most cases, it can be overcome pleasantly and safely by eating a delicious cereal.

Kellogg's ALL-BRAN is a natural food for normal individuals. It furnishes "bulk" in convenient and concentrated form. ALL-BRAN also provides vitamin B and iron.

Isn't this sunny way better than taking patent medicines? Two tablespoonfuls of ALL-BRAN daily are usually sufficient. Chronic cases, with each meal. If relief is not obtained, see your doctor.

Serve ALL-BRAN as a cereal, or use in cooking. Get the red-and-green package at your grocer's. Made by Kellogg in Battle Creek.

High School Senior, As School Reporter, Wins Contest Honors

Miss Lilyan Rumstay, 17, Writer For The News, Ninth Among 200

For the second consecutive year a student reporter for the New Castle News at Senior high school has won personal distinction and honor for her school in the Pennsylvania Newspaper Publishers' High School Reporters contest which the publishers of the state sponsor along with the department of journalism of Pennsylvania State college.

This year the glory falls to Miss Lilyan Isabel Rumstay, 17-year-old senior B who lives at 739 Croton avenue. She is enrolled in the secretarial course.

Miss Rumstay, contributing articles each week along with a group of Senior high student reporters, placed ninth among more than 200 contestants who entered. Her clippings, prepared according to specifications outlined by the contest sponsors, were judged by prominent newspaper personalities of the state.

"The quality of her work," read a letter to The News from Franklin Banner director of the journalism department, "the judges thought was very superior."

A year ago Miss Burdeen John won a high place in the annual competition.

The yearly contest is sponsored to bring about a closer co-operation between the school and the press.

Pirates Win, Indians Lose, In Only Games

Pirates Nose Out Boston Braves, 8-6—Cleveland Folds Up To Red Sox, 2 To 1

By PAT ROBINSON
International News Service Sports Writer

NEW YORK, May 7—The weather man may have more than his usual say as to where the major league pennants shall fly this year.

He's the man who sends cold and rainy days, causes headaches at the box offices, makes pitching problems for club managers and doubleheaders for discontented ball players.

He has no official say in baseball and yet he has more power over ball clubs than Judge Landis.

Grimm Happy

He's the man Charley Grimm, Happy Minstrel of the Cubs, is depending upon to land a pennant for Chicago in the national league.

He's Charley's especial little pal—says Charley—and the enemy of the Cardinals, Pirates and Giants.

He's the reason why the Giants and Cubs are going to usher in the first of the Giants eight already scheduled doubleheaders today and the reason why six other major league games were washed or frozen out yesterday.

"He's the tops" said Charley happily today. "Ever time he forces a doubleheader he plays right into my hands for I have that all important fifth starting pitcher when the going gets tough and that's more than the others can say.

Five Good Pitchers

"The Giants have four fine pitchers but what are they going to use for a fifth to take the strain off those double bills. The Pirates were lucky to pick up a swell young pitcher like Blanton but they're in the same boat with the Giants. And the Cards not only need a fifth starter, but they've got to find a fourth somewhere. After you get rid of the Deans and Bill Walker, the rest of them are soft.

"But me—I'm sitting pretty with French, Carleton, Lee, Warneke and Henshaw. Every time it rains now I laugh right out loud.

Pirates Win

The Pirates-Braves game—the only one in the national league yesterday—served to illustrate Charley's meaning. The Pirates were forced to use three of their starting pitchers to gain an 8-6 decision over the Braves.

"That's okay now" said Charley, "but how would it be if the Pirates had two or three double headers coming up in the next few days?"

The Pirates called on Hoyt after the Braves gave Birkofer the works and then called in Blanton to fan a couple and make the game safe in the ninth.

Old Larry Benton turned in a neat job after Rhem got the gate in the second until the ninth when he weakened to let the Pirates put over three runs.

Indians Lose

The Cleveland-Boston game was the only one in the American league the Red Sox winning it, 2 to 1, in a pitching duel between Fritz Ostermueller and Oral Hildebrand, the former yielding only six hits and the latter seven.

The defeat dropped the Indians into second place behind those surprising White Sox.

THE SPORT PATROL

By JOHN J. MAHER, JR.

BASEBALL BRIEFS

In the Boston-Athletic game of May 1, Managers Mack and Cronin used 35 players between them.... Ed Brominski, star halfback on the Columbia football team last fall, is now doing the catching for the college nine and is the team's lead-off man in the batting order....Cy Blanton, Pittsburgh's sensational young mound star, was once in the farm system of the St. Louis Cards, which seems to prove that even the shrewd Rickey can err occasionally. The Cardinal hurling corps would look mighty fine now if it had Cy to work along with the two Deans and Bill Walker. Ralph Birkofer, the southpaw portion of the Pirate hurling department, likewise, at one time belonged to the new York Yankees but was cut adrift.

Harold (Had) Haid, former local baseball star, is still on the roster of the Oakland team of the Pacific Coast League. Haid went in as a relief pitcher a few times last week and performed satisfactorily.... Douglass Allison, of Cincinnati, in 1886, was the first player to use a glove for the left hand....During Hack Wilson's three weeks with the Phillies last season he is said to have eaten a total of 63 steaks. During the same period he made only two hits. Wilson is now playing in the International League with Albany but has been handicapped in his comeback attempt by injuries....Although Babe Ruth led the American League in batting in 1924 with a mark of .378, the home run idol was the league's high strike-out victim, whiffing a total of 81 times.

Rookie Cy Blanton is starting the season like a strikeout sensation but he has a long way to go before beating the National League record of Christy Mathewson, who fanned 2,399 batters during his career.... Outfielder James Barrett of the Detroit Tigers participated in all of his club's 162 contests in 1904.... Joe Kuhel, first baseman of the Washington Senators, is an expert at making cards disappear and appear again. He should try some of his magic on the pitching staff for Manager Bucky Harris....Terry Moore, rookie center fielder with the St. Louis Cardinals, was a printer on a St. Louis paper before he began his baseball career.... Burleigh Grimes says that the 1930 world series game that Jimmy Foxx broke up was the toughest he has ever lost.

Casey Stengel was ordered off the field more than any other manager during the 1934 season....Denton (Cy) Young averaged 28 wins a season over a period of 14 straight years. Now it's an unusual performance when a hurler hits the 28-win mark in any one season. Dizzy Dean went two victories better last year but no other hurler hit the mark....When Casey Stengel said last spring that he was going to work Van Mungo just as frequently as he possibly could without impairing the effectiveness of his star hurler, he was probably thinking of Mungo's 1934 record. Van pitched 314 innings, more than any other National League pitcher, and his 183 strikeouts placed him next to Dizzy Dean in that department.

GERSONS TO DINE

Members of the Gerson golfing team have been invited to the Municipal course clubhouse Wednesday night at 8 o'clock daylight time, to swing their niblicks and mashies into a steaming plate of spaghetti and meat balls. The following are invited to attend the dinner: Ernie Palus, Hackett Kennedy, Gene Veri, Ed Long, Fred Leslie, Mike Lombardo, Frank Fazzone, Izzy Solomon and Bob Thompson. Jack Gerson will be the host.

CROTON M. E. TEAM

Members of the Croton M. E. soft ball team will meet at the Scott St. field at 6 o'clock daylight savings time, Wednesday evening for a practice session. Following the practice a meeting will be held at the Croton M. E. church at 7:30 o'clock. The Crotons would like to have a practice game for next week. Get in touch with Harold Booth at his home on Chestnut street.

The pademelon is a small wallaby or kangaroo of New South Wales. It inhabits scrubby districts, and is hunted both for its flesh and its hide.

Scott High Will Be Here Friday

Scott High, Of Braddock, Class A Champions, Will Appear Here Friday Night

New Castle high school football team will have the famous Scott high of Braddock high football team as their opponents here Friday night at Taggart stadium—(weather permitting). The big gates of Taggart stadium will swing open at 7 o'clock, Eastern Standard Time. The preliminaries of the sports festival will start at 7:30 o'clock, E. S. T.

Anyone having purchased a ticket for the Glassport-New Castle game last Friday night, can use the ticket for admittance to the Scott high-New Castle game Friday night of this week, or can have their money refunded at the Sporting Goods store, according to an announcement by Faculty Manager Ralph H. Gardner today.

Defeated Miami

Scott High went to Miami, Florida, last Christmas and handed the Floridians a setback after winning the championship of the Class A W. P. I. A. L. by handing the highly touted Ambridge high eleven a defeat. Coach Johnny Reed will have his strongest possible lineup available for the game with the "Red Hurricanes."

With two weeks of preparation the New Castle boys will be ready for the invasion of Scott high. Football interest is at fever heat in this region due to three postponements of the New Castle and Glassport game.

Expect Big Crowd

Friday night (if the weatherman ever decides to let a little sunshine in) will no doubt see a mammoth crowd at Taggart stadium. The sports festival is enough to draw the people alone, but with the addition of two championship football teams having it out, should be enough to draw the largest crowd in the history of the Taggart stadium.

Tickets for the game can be purchased at the Sporting Goods store on East Washington street.

Golf Meeting Next Monday

Eight Teams Will Comprise New Business Men's Golf League Here

Business Men's Golf league will hold a final meeting on Monday night, May 13, at the "Y" at 8 o'clock, Daylight Time. The meeting called for last night had to be postponed. The league will open on Tuesday, May 14, at the Castle Hills course, and it is important that all managers of the various teams attend the meeting next week.

The following business houses and industrial plants will be represented: P. & O. Electric, New Castle Bankers, Dentists, Universal Pottery, A. & P. Managers, Independent Grocers, New Castle News and Bell Telephone.

A schedule will be drawn up by President Walther and presented to the managers for adoption at the meeting next Monday night. There is considerable interest for the Business Men's league here as such a venture has never been tried heretofore.

On Saturday, May 11, the schedule will be as follows:

Castlewood at Ryantown; umpires, Cardella and D. Ross.

A. S. & T. P. at Mahoning; umpires, Patterson and Hill.

Ellwood City at Wampum; umpires, Van Dyke and Fruitt.

On Sunday, May 12, games will be played as follows:

Carbon at Bessemer; umpires, Patterson and Hill.

Ryantown at West Pittsburg; umpires, Fruitt and Henry.

Mahoning at Ellwood City; umpires, D. Ross and Cardella.

Monday's game will be as follows: Hillsville at Castlewood; umpires, Van Dyke and Henry.

According to the schedule adopted by the league, each team will play 18 games in the first half, which will end June 19. The second half will start June 30 and the season will be ended August 10, a total of 36 games for both halves having been played.

One of the rules of the league adopted by managers was that should any team not go through with the games as scheduled the team or teams would automatically be ruled out of the league.

Soft Ball Umps Asked To Meet With Managers

Biggest Soft Ball Meeting Of Year Planned For "Y" Wednesday Night

New Castle's biggest soft ball meeting in the past eight years will be held at the Y. M. C. A. Wednesday night at 8 o'clock, Daylight Time, it was announced by President Charles "Bugs" Walther today.

All of the men who expect to umpire soft ball games this year are invited to the meeting. Instructions will be given the umpires by Commissioner Norman Buckingham, who has been made chairman of the board of commissioners. There is a plan under way this year to pay the umpires who handle soft ball games. This has never been done heretofore.

In addition to the umpires the league officials, Walther, Babovsky and Viggiano, and all of the managers will attend. This will be the last big meeting before the season swings open next Monday night. (Weather permitting.)

It is important that every umpire, manager and official get to this meeting Wednesday night.

ZIVIC WINS BOUT

(International News Service)

CHICAGO, May 7.—Flooring his foe three times in the second round, Fritz Zivic, Pittsburgh welterweight, last night defeated Sam Chivas of Detroit by a technical knockout in the third round. Zivic floored the Detroit fighter again in the third round.

HERE AND THERE IN SPORTS' LAND

American fight fans are enjoying a loud guffaw over the action of the International Boxing union in "stripping" Max Baer of the world's heavyweight boxing title because of his alleged failure to agree to defend it against Pierre Charles of Belgium, a battler who has been campaigning for 10 years with little success. The action will have no effect in the United States and will not cause any additional wrinkles to form in Baer's forehead.

The Lou Ambers-Tony Canzoneri battle Friday night at New York will produce the next lightweight champion, Barney Ross having left the division to fight Jimmy McLarnin for the welterweight crown. According to expectations the fight should be one of the best of the year.

Omaha, winner of the Derby at Churchill Downs, Saturday has arrived at Pimlico and will run in the Preakness this coming Saturday. The strapping three year old son of Gallant Fox made the trip without a scratch and is scheduled for a workout today.

New Castle High Golfers To Play

New Castle high school golfing team is going to Butler to play a match with the Butler high team today. The match is scheduled to start at 3:30 p. m., Eastern Standard Time. (Weather permitting.)

New Castle has defeated Aliquippa and lost to Beaver Falls. Butler defeated Beaver Falls, and so it doesn't look any too rosy for the Ne-Ca-Hi niblick swingers.

Umpires To Hold Meeting Wednesday

Lawrence County Umpires association will meet at 7:30 p. m., E. S. T., Wednesday at Pete Capitola's office, North street. Plans for the coming season will be discussed to Lou Glitch, president of the body.

McLarnin Hopes For Comeback In Bout With Ross

Barney Ross Believed To Be Too Strong For Welterweight Champion

By DAVIS J. WALSH
(International News Service Sports Editor)

NEW YORK, May 7.—Perhaps it's all because I once studied up to be a problem child and couldn't quite make it, but I know of no better time than the morning of his arrival here to tell James Archibald McLarnin, the welterweight champion, that I think his number is up. The thing, as a matter of fact, might as well be said now as on any other day before May 28 when he is to defend the title in front of Barney Ross in one of the ball parks, since I happen to think that McLarnin has as great a chance to change his age as I have of changing my mind.

Nobody seems to quite realize it, but the years have caught up with James. He's only twenty-nine, of course, but he started at seventeen, which makes him twelve years in the ring and few of them stay good longer than four or five.

Tribute To McLarnin

He fought and knocked out Jackie Fields in 1925, for instance, and Fields has been out of boxing for some years. So has Sammy Mandell, who pecked McLarnin full of eyelets for the lightweight championship seven years ago. All the old hands of that time have long since passed from the scene—Ray Miller, who stopped McLarnin in Detroit; Joey Sanger, Sid Terris, Phil McGraw, Sammy Baker, Ruby Goldstein, Joe Glick and Al Singer.

It is a tribute to McLarnin's clean living that he remains a champion today while men of his generation are back on the asphalt, trying to look as though everything was going to be all right.

McLarnin's record, too, shows that he doesn't miss often when the checks are dawn. He lost first fights to Mandell, Petrolle and to Ross himself, but beat all three when he got them again. However, time is something nobody can beat. It just grows on you like a goitre.

On Court House Hill

Return of viewers who were appointed upon petition of the Wampum school board to settle a controversy over land to be taken into the borough, was postponed today until the June term of court.

Eighteen properties were sold by Sheriff Edward E. Pritchard and Deputy Elmer Taylor yesterday. Sixteen of the properties were bid in by the plaintiffs in the suits, only two being sold to outsiders. This is better than usual as it generally happens that plaintiffs get all of the properties.

Forty-four instruments of all kinds were entered at the register and recorder's office last week. Of this number twenty-three were deeds and twelve mortgages. Only one Home Loan mortgage, for $746.42, on property in Union township, was placed. Several crop loan mortgages were also recorded.

Arguments on a motion for new trials were made before Judges Hildebrand and Chambers today in the cases of Benjamin F. Black against C. W. and Eleanor Beerbower, and the Beerbowers against Black. This was a case growing out of an automobile accident, and the verdict was awarded to Black.

Under the will of the late Effie McKibbin, certain personal property is given to relatives, and the balance of the estate is divided among the following persons: James A. Beck of Pueblo, Col., William S. Beck, Detroit, Mich., Anna M. McConnell and son, Walter; Hubert M. Beck, Detroit, Mich., Ethel M. Green, and William McKibbin and I. E. Donnan McKibbin, sons of Donnan McKibbin.

Three cases which were to have been argued this week on applications for new trials, have been continued until a later date. They are Stanley Susgenavich against the Washington Mutual Fire Insurance Company, Andy Rotunno against Erskine and Schraum, and Gilbert Domininitz against R. E. Conway of Enon.

An amicable action of ejectment has been filed at the prothonotary's office by Fannie J. Bidenbach against Frank L. Blumquist and Helen Blumquist, to secure possession of the second floor of a duplex house on Hart street. It is claimed that the apartment was rented at $12 per month and that the rent is in arrears.

Considerable confusion exists as to the exact wording of the new act recently signed by the governor which in the main provides that if a taxpayer pays his 1935 taxes, he will be exonerated from the payment of any penalties or interest on delinquent taxes. It is presumed that the act becomes operative from the date that it is signed, but Representative William J. Eroe, who was here Saturday was unable to say for certain. He said that copies of the act now being printed and will be obtainable this week. Several attorneys have already sent for copies. Another point is with reference to the status of delinquent tax collectors. Heretofore they have been allowed a commission on the collection of delinquent taxes. Purchasers of properties at sheriff sale yesterday took them subject to taxes, as they will be able to save considerable money under the new act.

Joseph J. Ryczaj, has given bond in the sum of $3000, as guardian for Francisca Janicki. The appointment of Ryczaj as guardian was made after hearing before Judge James A. Chambers, in which it was shown that Francisca Janicki has been ill and unable to look after her estate.

Arguments in an application for a new trial were heard by the court today in the case of the Pittsburgh and Lake Erie, Y. M. C. A., against Alex Robb. The case is one in which there was a dispute over a plot of ground used for camping, near Elliot's bridge in Scott township. The case was won by Robb and the plaintiff asked for a new trial.

Several verdicts in court here have demonstrated that it does not pay to flee after an automobile accident. Occasionally a hit-runner escapes, but the majority of them or either caught, or give themselves up afterwards. The latter class generally explain that they were frightened and afraid to stop. There are various ways of tracing persons who have been involved in accidents. License numbers offer the best clue. Through the numbers, the police can trace the owner of any automobile in the United States. But at times the accident occurs in the dark, when licenses cannot be seen, or the victim is rendered unconscious, or has not the presence of mind to copy the number. In this event a broken headlight, a dinged fender, a splotch of blood, or a guilty conscious may for the clue that will solve the case.

Registering assessors in boroughs and townships yesterday started making party enrollments for 1935. This enrollment will determine who are eligible to vote on party tickets at the coming primary. The voter is supposed to designate his party affiliation of his own free will, without any suggestions from the registering assessor. A report comes from a middle state county that efforts are being made to dictate party affiliations to relief workers. There is no man on relief who is beholding to any party for that fact. Taxpayers of both parties furnish the money, and the work of administering relief is by both parties. It will remain so, regardless of who is in power, so that the voter should register as his conscience dictates, and not according to the dictates of any party politician.

Steel Workman Slaying Victim

(International News Service)

PITTSBURGH, May 7.— John Penkova, 60-year-old unemployed steel worker, was found dead Monday in the tiny cellar of his lonely home, apparently victim of an unknown killer.

A battered razor that had been wiped with a piece of cellophane was found in a pool of water, giving rise to the murder theory. Penkova was found by his son-in-law, Albert Lenguel and Chief of Police Peter Sokolowske, of Chalfont, after the dead man's daughter had instituted the search.

Lusitania Sank Twenty Years Ago May 7

May 7 marks the twentieth anniversary of the sinking of the British liner Lusitania by a German submarine while en route from New York to England. The liner, torpedoed by the German submarine J-20 off the coast of Ireland, sank so rapidly that 1,195 lives were lost, of whom 124 were Americans. Captain W. T. Turner, in charge of the Lusitania, survived the disaster. Elbert Hubbard, American writer, and Alfred Gwynne Vanderbilt, millionaire, were among the American casualties. A facsimile of an advertisement published in New York newspapers by the German embassy a short time prior to the sinking, warning Americans not to sail on British ships is shown above. The Germans charged that British liners were carrying war supplies for the allies. Capt. Kurt von Schweiger, commander of the U-boat, died a few months later when another submarine he commanded was sunk. The Mauretania, sister ship of the Lusitania, was sold recently for scrap.

County Farmers Still Slighted

Fail To Receive But Slight Benefit From Crop Adjustment Program

TOTAL RECEIPTS ARE BUT $1,407.11

By ARTHUR C. WIMER
Special Washington Correspondent
Of The New Castle News

WASHINGTON, D. C., May 7.—Lawrence county farmers and Pennsylvania growers in general continue to receive but slight benefit from the New Deal's crop adjustment program which is costing consumers of the county and state many thousands of dollars in processing taxes.

Up to April first, Lawrence county farmers cooperating in the adjustment program had received only $1,407.11 in federal benefit payments. Of these, $205.40 went to county farmers reducing wheat production. The balance of $1,201.71 was paid to farmers cooperating in the corn-hogs reduction plan.

Benefit payments to farmers of Pennsylvania as a whole had totaled only $1,916,336. In sharp contrast to this small aid to the Keystone State stood out vast payments to other states, such as $18,126,472 to Ohio, $53,659,671 to Kansas, $34,998,640 to Oklahoma, $89,459,119 to Texas. Despite the small receipts by Pennsylvania farmers, Pennsylvania consumers have been assessed the same as consumers in the farm states to finance the control program.

Benefit payments to April first had totaled only $1,511.30 in Beaver county, $2,963.28 in Butler county, and $2,012.13 in Mercer county.

Falcons Prepare For Convention

Three Thousand Delegates Expected Here On July 3-4-5 — To Hold Field Meet

With approximately 3000 delegates expected to attend from 42 cities, elaborate arrangements are being made by the Polish Falcons for the convention of District Four here on July 4, 4, 5. Already it is indicated that 1500 will participate in the track and field events. To handle the local arrangements the Falcons have appointed the following committee, G. Boron, chairman: A. Dombrowski, V. Seniow, J. Biedka, F. Golis.

Just where the convention site will be located is not known, steps being taken to get a hall sufficiently large enough to handle the crowd. The Falcon hall on Miller street is far too small to accomodate the crowd.

As chairman, Mr. Boron is deluged with work in preparation for the convention and by the middle of June will be doing little else than convention work. With him his commitee is working just as valiantly to make the coming convention an outstanding event in the Falcon organization.
